## SAFE ROBBERS LOSE $1800 IN FIRST ATTEMPT HERE

**FOILED IN EFFORT TO OPEN STRONGBOX AT AGENCY OF GREEN & M'CLELLAN**

**Dynamiters were foiled in their attempt to crack a brand new safe at the Green & McClellan Oakland agency, 115 West Harvard street, early today, the door failing to yield to two explosions.**

There is $1800 in currency, checks and Liberty bonds, according to Max Green, and the Los Angeles Safe company sent out an expert, I. Fenberg, who drilled open the wrecked door of the $250 vault which was equipped with an Anakin burglar-proof auxiliary spring lock.

The first explosion was heard shortly before 5 o'clock this morning by William A. Slater of the Slater Tire Service, 110 West Harvard, who resides opposite the Oakland agency. It was exactly 5 o'clock when the second and louder report startled him from his bed and going to the front door, he saw a middle aged man, wearing a soft hat and long rain coat, standing in front of his own shop.

It is believed that Mr. Slater's appearance at the door of his establishment caused the cracksmen to flee. According to the police, this is the first invasion of yeggmen into the quiet precincts of Glendale and luckily for Green & McClellan they tackled one of the newest and strongest safes made.

**Says Dynamite Used**

James L. Browne of the Glendale Patrol and Fire Dispatch who is assisting the police in their investigation states that dynamite evidently was used after the knob of the strong box door had been chiseled off. Mr. Browne has taken finger prints from the safe door and it may be that identification of the culprits will be made through this means if they are old-timers at such work.

The belief is expressed, however, that the work was done by amateurs on account of the failure to make good and from the fact that they used dynamite instead of nitroglycerine in their futile attempts.

Entrance to the building was gained through a casement window in the garage at the rear of the Oakland display room. The window latch was forced open by the use of a jimmy. Frank Meyers, who is employed at the place, discovered the efforts at robbery when he opened the place shortly before 8 o'clock. He immediately notified Mr. Green who called the officers to investigate.

**POPULATION INCREASE**

Birth registrations, according to City Clerk J. C. Sherer, show an increase in population of about one a day during the month of April. There were twenty-nine people born here and thirty-eight died here during the thirty-day period. A large percentage of the deaths, however, are of non-residents who pass away at local hospitals.

## CITY REQUIRES NEW FIRE ENGINE, IS WARNING GIVEN

**ONE MORE ATTEMPT WILL BE MADE TO REPAIR THAT IN USE NOW, IS DECISION**

Warning that the fire engine purchased by the city of Glendale from the city of Tropico is not in a dependable condition for service was given the Board of City Trustees last night by T. W. Watson, city manager, who also recommended Glendale buy a fire engine for $12,500 on a contract calling for deferred payments.

Trustee Spencer Robinson said he had been informed the fire engine could be repaired for a sum not to exceed $250 and he urged the experiment be made.

Fire Chief Lankford stated considerable city money had already been expended on the engine without success and declared he did not want the responsibility of making further experimental expenditures.

"Well, experts tell me the engine can be repaired," said Trustee Robinson. "I am willing to try an expenditure of $250 in an effort to save contracting a bill of $12,500. If we lose out, we can then junk the engine and buy the new one, as recommended."

Trustee A. H. Lapham also expressed himself as being in favor of making one more try to save the engine, in view of the sum the city stood to win.

**Stephenson Opposes**

Dwight W. Stephenson, president of the board, asserted he would not vote to spend the $250 for repairs until further expert opinion had been obtained that the experts favoring the repairs really knew what they were talking about.

"I certainly do not favor contracting for $12,500 if the old engine can be repaired," he said. "But I am not yet satisfied we are justified in spending the $250. I would like to have further expert opinion before voting for the expenditure."

After some further discussion, a motion by Trustee Lapham that Roy Hinchcliff be authorized to repair the engine at a cost not to exceed $250 carried with President Stephenson voting against it.

The understanding was that if the repairs prove a failure this time, the board will then consider the proposition of buying a new engine.

The city manager's communication on the subject follows:

"In regard to fire truck No. 2, the Knox Fire Engine purchased by the city of Tropico. We have a serious proposition confronting us in regard to this truck.

"I am in receipt of a letter from Chief A. H. Lankford setting forth that this truck is not in dependable condition for fire service. From Mr. Lankford's letter and verbal report, I am convinced that it will not pay to have the machine overhauled. It certainly will not pay to continue

(Continued on Page 13.)

## Local Fishermen Are Back; Report Fair Luck

J. G. Huntley, Jesse Smith and Frank Fell returned Wednesday night from a fishing party to Deep Creek, near Allison's ranch, San Bernardino mountains, having been gone since Saturday. The party reports a fair catch and a fine time. At the point where these fishermen tried their luck the elevation was 6500 feet and the weather quite cool. The mountains and hills in that vicinity have quite a bit of snow on them. Tuesday morning ice was found in the basin outside the cabin where the fishermen made their headquarters. Although their luck was good, the members of the party state that it would have been better if the weather had been a little warmer.

## A. K. Barr Property Is Sold; To Be Improved

The Anna K. Barr residence and grounds, which include 100x260 feet, at 1327 Valley View Road, have been sold to Mr. and Mrs. A. A. Bassett, recently from Denver, Colorado. Mr. Bassett, who is connected with a wholesale drug company, will take possession the first of June. It is his intention of improving the grounds and make it one of the show places of the foothill section of Glendale. The sale was made through the MacGregor Realty company.

Mrs. Barr has purchased a seven-room colonial bungalow at 1433 Coronado street, Hollywood.

## Mr. and Mrs. Dunn Are Hosts At Dinner-Bridge

Mr. and Mrs. John Dunn of 446 West Colorado street entertained with a dinner party Wednesday night, followed by an evening of bridge. Table decorations of red roses were used. The guests were Miss Harriet Bayard, Miss Vera Bayard, Paul Kaulhausen of Los Angeles, Frank Dunn of Los Angeles, Mr. and Mrs. Alvin Dunn of Pasadena and the host and hostess, Mr. and Mrs. John Dunn. High score was made by Mrs. Alvin Dunn and Paul Kaulhausen.

## Mr. and Mrs. R. Wilson Home From Honeymoon

Roy Wilson and his bride, formerly Mrs. Nettie Turner of this city, returned to Glendale yesterday from their week's honeymoon trip. The journey was made via automobile, most of the time being spent in Bouquet canyon and surrounding country. Mr. and Mrs. Wilson have temporarily located in the Ayres block on Glendale avenue.

## Edwin Johnston In Accident On Broadway

Edwin Johnston, driver for E. Coker, the plumber, states that as he was going west on Broadway on Thursday, a heavy car cut the corner at Orange, striking his Ford delivery, turning it around, and breaking one of the front wheels. It was running the same as usual today; it's hard work to knock out a Ford, Johnston declares.

## Today's World News In Brief

(By United Press to Glendale Evening News)

LONDON, May 6.—Britain's battle squadrons were ready for action against Germany today.

WASHINGTON, May 6.—Senate leaders planned to reach an agreement today to vote on the emergency tariff bill next week.

PARIS, May 6.—France today began mobilizing a half million soldiers to invade Germany at the slightest evasion of the allied terms.

LOUISVILLE, May 6.—A dozen blueblooded thoroughbreds will start Saturday in the $50,000 Kentucky derby at Churchill Downs.

SAN FRANCISCO, May 6.—Major General Charles H. Muir of Camp Lewis today assumed temporary command of the western army department headquarters here.

BERLIN, May 6.—Germany today prepared to set up a mediocre cabinet for the purpose of accepting the allied reparations terms, meanwhile turning attention of the public to the invasion of Upper Silesia.

SEATTLE, May 6.—The seamen's strike today threatened to precipitate a food shortage and seriously disorganize business in Alaska, according to word reaching Seattle.

CHICAGO, May 6.—The final testimony in the hearing by the railroad labor board on the petition by railroads for reduction of wages of their employes, was presented today.

SAN DIEGO, May 6.—Rifle fire in the hills south of the Mexican town of Tia Juana last night and early this morning has re-aroused the fears of a Cantu revolution along the border.

PALO ALTO, May 6.—Fire destroyed two wards of the soldiers' tuburcular hospital here during the night at a loss of $60,000. The sixty patients in the two wards escaped in safety.

LONG BEACH, May 6.—An unidentified man, believed to have been L. Seigel, was instantly killed today when his automobile was struck by an inbound Pacific Electric Long Beach train.

WASHINGTON, May 6.—The export trade of the big packers slumped $526,000,000 during the last year, Thomas E. Wilson of Wilson and Company, told the house agricultural committee today.

SAN FRANCISCO, May 6.—Although the first break in the ranks of the ship owners occurred late yesterday, seven ships had been added today to the list of those tied up here by the seamen's strike.

SAVANNAH, Ga., May 6.—Several shots were fired at shipping board officials here today as they were arranging to put strike-breaking seamen aboard the steamship "Paulsen." No one was wounded. Bricks were thrown in the fight.

WASHINGTON, May 6.—Hope that agreement can be reached today between Admiral Benson, chairman of the United States shipping board, and striking seamen and engineers was expressed at the office of Secretary of Labor Davis.

MELFI, Italy, May 6.—An attempt to assassinate former Premier Nitti of Italy was made here late yesterday. Three shots were fired at an automobile in which he was supposed to be riding. Nitti, however, was in a second machine.

NEW YORK, May 6.—The stock market today continued the gains of yesterday's session. Rails were the feature of the opening, the leaders being Missouri Pacific, Southern Pacific, B. & O. and Reading. Gains ranged from ¼ to a full point.

## CIVIL AND CRIMINAL ACTION MAY RESULT AGAINST PACIFIC ELECTRIC BECAUSE OF GIRL'S DEATH IN CRASH

### Students of Occidental College Demand That City of Glendale Start Proceedings; Mattison B. Jones Gives Views on Coroner's Inquest

Both civil and criminal actions will, it is probable, be taken against the Pacific Electric Railway company as the result of the death of Miss Eugenia Lindsey and the injury of her sister, Miss Sara, last Monday, when a three-car Burbank special train hit the automobile in which the young women were riding, the crash occurring at Los Feliz and Brand.

A coroner's jury yesterday in Los Angeles found that S. J. Broswell, motorman in charge, was running the train at excessive speed and that it was beyond control; that no warning signal was given; that no danger signal is located at the crossing.

At the meeting of the Board of City Trustees last night a delegation of Occidental college students, headed by James C. Sheppard, Jr., president of the student body, appeared and filed a resolution passed by the student body, of which the victims of the collision were members, urging the city authorities to use every possible effort to see to it that the facts of the accident are obtained, to see that the laws of the city are enforced, and if there be not sufficient laws on the statute books, that this legislation be given the immediate attention of the authorities in order that the lives of the citizens may be protected.

**Resolution and Letter**

The resolution is given in full in The Evening News together with a communication from Mattison B. Jones, one of the attorneys representing Miss Lindsey's relatives, present at the inquest yesterday.

Also at the meeting of the trustees last night, Mrs. Annie Bancroft filed a petition signed by about 600 Glendale residents in which it is stated that a clause in the street car franchise for all trains on Tropico avenue to stop at certain crossings is ignored and requests that the city abolish the speeding of limited trains through Glendale.

The petition is the same as that circulated at the recent luncheon given under the auspices of the Chamber of Commerce.

Trustee Bartlett called attention to the fact that the trustees, at a special meeting held last Monday, instructed that the police department investigate as to whether the Pacific Electric was violating the law.

Following the presentation of the resolution from the students and the petition from Glendale residents, Dwight W. Stephenson, chairman of the trustees' board, stated the verdict of the coroner's jury and said:

**Has Important Witness**

"I have the name of a witness who was driving alongside the street car just prior to the accident and he states his speedometer registered 35 miles an hour."

He also said he would be pleased to provide the city authorities with all the evidence in his firm's possession.

After brief discussion, Trustee C. H. Henry, seconded by Trustee Spencer Robinson, made a motion to the effect that Hartley Shaw, city attorney, be instructed to secure a copy of the testimony presented at the coroner's inquest and, if the evidence warranted, to bring criminal proceedings against the Pacific Electric in the name of the city. The motion also included instructions to the police department to conduct an inquiry. The motion was unanimously adopted.

"The civil action against the company is being taken care of," said Chairman Stephenson.

The petition presented by Mrs. Bancroft was ordered filed with the city attorney to check up with the provisions of the ordinance and report back to the board.

**Resolution by Students**

The Associated Students of Occidental college on May 5 passed the following resolution which was read at the meeting of the Board of City Trustees last night:

"WHEREAS, The Burbank Special Pacific Electric train which struck two of the members of our body on Monday morning at about 8 o'clock at the intersection of Los Feliz and Brand boulevards, fatally injuring Miss Eugenia Lindsey, and seriously injuring Miss Sarah Lindsey, and

WHEREAS, It is known that the speed of the Pacific Electric train greatly exceeded the speed limit set by the law of the state and the city of Glendale, the district being within the city limits, and,

"WHEREAS, It is the desire of the Associated Students of Occidental college to assist the city of Glendale in ascertaining the particulars of the accident and in seeing that matters are properly adjusted for the welfare of the citizens of Glendale and those citizens making use of the public highways, be it

"RESOLVED, That the Associated Students of Occidental college hereby earnestly request the City Council of Glendale to use every possible effort to see to it that the facts of the accident are obtained, and be it further

"RESOLVED, That the Associated Students of Occidental college hereby respectfully request the City Council of Glendale to use every effort in their power to see that the laws of the city are enforced, and if there be not sufficient laws on the statute books, that this legislation be given the immediate attention of the authorities, in order that the lives of the citizens may be protected and the city of Glendale allow no blot to stand upon its fair name, and, be it further

"RESOLVED, That a copy of these resolutions be given to the Glendale,

(Continued on Page 13)

## WEST BROADWAY EXTENSION OVER CENTRAL AVENUE AGAIN SOUGHT

### Petition to Be Circulated Among Property Owners in Hope of Obtaining Desired Improvement

Urged to action by property owners, the committee on railroads, highways and public utilities of the Chamber of Commerce and T. W. Watson, city manager, the latter having conferred the past two weeks with people interested, the board of city trustees last night, on motion of Trustee A. H. Lapham, took the first step toward extending West Broadway directly across Central avenue to eliminate the square corners now prevailing.

Action was taken because of the fact that A. P. Offutt, owner of the vacant lot on the southwest corner of West Broadway and Central, has asked the city for permission to erect and operate a gasoline filling station there.

The city manager, in a communication filed last night, recommended that the application be tabled until it is decided whether the improvement plans for West Broadway are to be carried out.

The board decided to take no action on Mr. Offutt's application for two weeks. In the meantime, the Chamber of Commerce committee will endeavor to show the trustees that the continuation of West Broadway through Central avenue is desirable, necessary and wanted by the majority of property owners.

**Public Park Is Sought**

Accompanying the city's manager's communication was a blue print showing the proposed West Broadway extension. The map shows that a portion of the southwest corner of West Broadway and Central avenue will be an "island" and, according to the views of some advocating the improvement, this land should be made into a public park.

Mr. Offutt was present at the meeting last night and stated he was not opposed to the proposed thoroughfare. He insisted, however, that immediate action be taken to determine if the project is favored. If it is not favored, he desires, he said, to erect the oil filling station.

The project was seriously considered several years ago, but dropped. Recently, however, property owners on West Broadway have been insisting the roadway be constructed. It is proposed to establish a large assessment district to pay the cost.

The present plans, if carried out, will cause a grocery store located on Central and facing West Broadway as it runs from Brand to be moved about 30 feet south. The plans will also cause two houses on the south side of West Broadway, just off of Central, to be moved entirely.

A petition asking that the improvement be made will, it is understood, be put in circulation at once, and, too, an estimate of the cost, together with the lines of the assessment district, will be announced.

**City Manager's Letter**

The communication from the city manager, containing the letter from the Chamber of Commerce committee, follows:

"In regard to application of A. P.

(Continued on page 12.)

## Mr. and Mrs. M'Guire Come Here From East

Among the recent newcomers in the north Glendale district are Mr. and Mrs. H. W. McGuire, who have just located at 1536 Lorraine street. The young couple came to southern California several months ago from the east, where they had just been married. Mr. McGuire is employed by one of the local cleaning and pressing establishments.

## Mr. and Mrs. A. Levin Hosts On Anniversary

Mr. and Mrs. Arthur Levin of 928 North Louise street entertained a number of friends and relatives from Los Angeles Tuesday night in honor of Mr. Levin's birthday. After the guests had enjoyed a delicious dinner served by the hostess, the remainder of the evening was spent in dancing and playing games.

## Test May Be Made of Sunday Closing Law

SPOKANE—Testing of a local Sunday closing ordinance as it applies to the operation of shoe shining stands is expected to follow conviction of proprietors of two stands and their appeal to the superior court. Each of the two men was fined $100 in justice court here.

## Frank E. Edbrook To Be Buried In Denver

The remains of Frank E. Edbrook, aged eighty-one years, who passed away May 3, were taken this morning to Denver, Colo., by the widow, Mrs. F. E. Edbrook, for interment. Mr. Edbrook was a retired architect and was a native of Illinois. Pulliam & Kiefer Undertaking company is in charge.

## Fred Reed Is Again Resident Of Glendale

Mr. and Mrs. Fred Reed and family, formerly of Glendale, and who for the past year have been residing at Salt River Valley, Arizona, have returned to Glendale and for the present are the guests of Mrs. I. Randolph, 416 North Jackson street. Mr. Reed owns considerable property in this city.

## Total For Rainstorm To Date .75 Inches

Rainfall for the past twenty-four hours, as recorded at the home of H. E. Bartlett, 347 North Brand boulevard, amounted to .47 inches, making the total for this storm .75 inches and for the season 13.47 inches.

**TRANSFERRED TO GLENDALE**

C. A. Marquardt of Hollywood has been transferred to the Glendale offices of the Southern California Gas company from Los Angeles. He expects to make his home here.

## Chautauqua Director Arrives In Glendale

F. I. Drexler, director of the Glendale chautauqua, arrived in Glendale yesterday afternoon from Tucson, Arizona, to take charge of the chautauqua work here. He will remain in Glendale until the chautauqua is ended. While in this city he is making his headquarters at the Central hotel.

The Glendale chautauqua committee will hold a meeting at 7 o'clock tonight at the Chamber of Commerce.

## Mrs. Wm. Prenderville's Purse Found In Drain

A purse, said to have been stolen from Mrs. William Prendeville of 335 West Patterson avenue, was found by plumbers in the drain at the Pacific Electric station here two days ago. It has been turned over to the police. It is understood that $69 in currency and some small change was removed by the pickpocket before he discarded the pocketbook containing bank books, a classified ad which Mrs. Prendeville was bringing to The Glendale Evening News office and other papers.

**PETITION FOR POSTOFFICE**

Petitions for an independent postoffice are now being circulated by the Chamber of Commerce to add to the many names already sent in on the form printed in The Glendale Evening News.

## CHARGE TO COLLECT WASTE AND GARBAGE MAY BE MADE BY CITY

### Operating Expenses and Glendale's Growth Reasons Given Why Action Is Deemed Necessary

The city of Glendale may make a charge for the service now free of collecting garbage and other waste matter.

This developed at the meeting of the board of city trustees last night when T. D. Watson, city manager, filed a communication in which he stated, in brief, that the purchase of a truck recently authorized by the board, and the fact that the city is growing so fast compells a small charge to be made for gathering garbage and waste matter.

It is proposed that the charge be only for the first six months of the coming fiscal year, from July 1, 1921, to January 1, 1922, and then perhaps, free service may be resumed.

It is planned to issue tickets in coupon books, each book containing twenty-five tickets and selling for $1.75, for sale to all who desire the city to collect garbage. It is also proposed to make a nominal charge for the collecting of waste paper and rubbish from the business district.

**No Decision Reached**

The trustees did not reach a final decision on the city manager's plan last night, the matter being referred to the committee of the whole for further discussion. The city manager's communication follows:

"In regard to the gathering of garbage, waste matter and rubbish:

"As reported to your board on March 24 this service has increased greatly during the past year or more on account of the large number of new residences that have been established during that period and also on account of the large number of new businesses that have been established in the business district.

"In anticipating the cost of this service and the outlay necessary therefore for the ensuing fiscal year, we find it advisable to call your board's attention to the following:

**Cost Estimate $500 Monthly**

"The purchase of a two-ton Moreland truck authorized by your board last Thursday evening for this service will require that monthly payments therefor be provided for in next year's budget in the sum of $266.25 by reason of there being insufficient funds available at this time to pay the entire purchase price. It will probably be necessary to operate this truck ten hours a day. It is estimated that this will cost including the salary of driver and other help required in connection therewith approximately $500 per month. This truck may also gather a portion of the tin cans and waste matter. It will no doubt require a portion of the time of an additional truck for this service. This is estimated to cost $100 per month.

"It is now costing to gather papers in the busines district approximately $200 per month, making a total monthly cost for gathering and disposing of garbage, waste matter, waste paper and rubbish of $1066.25 against which there would be credited $100 per month that will be re-

(Continued on page 12.)

**WE APPEAL TO YOU**
**MR. SHREWD INVESTOR**

For six years we have studied Glendale values and have seen and compared the growth of our city with others and are free to say that such values as we offer (and sell) are worth your time and trouble to investigate.

Needless to say that we cannot publish many of our inducements to buy as many require prompt action on our part and are snapped up many times before the ink is cold on the listing.

There is a reason for this. Get in touch with us and leave your name on our mailing list for special bargains as others have and are doing. We will promise to give you first hand knowledge at once concerning safe investments that we have to offer. We include here two bargains in eight room bungalows that have been cut to the quick by owner who is in the east, with instructions not to publish the price BUT TO SELL. These are the best we have offered since the three we sold on South Jackson, and the property on North Louise. This is close in property on the car line and very valuable. Income stuff at the price of the ordniary small bungalow. Is this tip enough?

**HART REALTY CO.**

## Madrigal Club Holds Last Social Meeting

Members of the Madrical club were the guests yesterday of Mrs. Charles A. Parker and Mrs. J. A. Wright, at the home of the former, 212 North Orange street, at a substantial two-course luncheon and musical afternoon. This was the last social get together meeting before the closing of the season. The Madrigal club will take part in the program to be given this evening at the Glendale Music club concert and will also present a program at the Congregational church May 18.

Special guests for the afternoon were Mrs. C. H. Meadows, sister of Mrs. C. A. Parker; Mrs. Frank Arnold, Mrs. L. N. Hagood and Mrs. Hogan. Members present included Mrs. John Ray, Mrs. C. L. Peckham, Mrs. G. D. Roach, Mrs. Verick, Mrs. C. R. Chappell, Mrs. George Herald, Mrs. S. I. Tuttle, Mrs. Helen Graham Cole, Mrs. H. V. Henry, Mrs. John Baum, Mrs. R. A. Puffer, Mrs. L. E. Richardson, Mrs. Walter Jones, Mrs. A. M. Draper, Mrs. W. D. McRae, Miss Gertrude Champlain, Mrs. John Cotton, Mrs. H. L. Bullinger, Mrs. Charles A. Parker and Mrs. J. A. Wright.

One of the interesting diversions of the afternoon was a guessing contest, the object of which was to see which lady could make the most number of words from the letters contained in "Glendale Madrigal Club" in a period of fifteen minutes. The first prize was awarded Mrs. Chappell and consolation prize to Mrs. Ray.

Original piano compositions were played by Mrs. L. N. Hagood and Mrs. Wright. Miss Champlain played two numbers composed by Julius Kranz. Informal songs by the Nevin quintet and also by the Madrigal club were enjoyed. Decorations of red and white roses were used in the various rooms of Mrs. Parker's home.

Some men would get along much faster if they didn't lose so much time telling other people how smart they are.

## Locals And Personals

Mr. and Mrs. Light of North Adams street were visitors the first of the week at Long Beach.

Broadway baseball team played the Pacific avenue team Wednesday, the latter winning the game.

Verne A. Nyman of 1117 Viola avenue is the proud owner of a new Ford coupe, having purchased it from Jesse Smith this week.

Mrs. Alex McVickers of 1119 East Broadway spent Wednesday at the home of her daughter, Mrs. E. R. Hopkins of Los Angeles.

There will be no bowling match at the Glendale lodge of Elks tonight on account of the tournament at Fresno.

The May festivals which were to have been held this afternoon at a number of the schools throughout the city have been postponed on account of the inclement weather.

Ralph E. Miles of 914 Randolph street will take a business trip to Bakersfield next week, intending to be away about four days. He will make the trip in an automobile.

A splendid book review on "Understanding the French" was given by Mrs. J. E. Sargent at the meeting of the literary section of the Tuesday Afternoon club.

Catherine Evans, little daughter of Mr. and Mrs. W. E. Evans of 333 North Orange street, who had her tonsils removed Wednesday and was brought home yesterday, is getting along nicely.

Mr. and Mrs. M. L. Russell of 322 Riverdale Drive and daughters Eleanor, Virginia and Janet were the dinner guests last night of Mr. and Mrs. W. N. Stamps of 436 West Colorado street.

Mr. and Mrs. J. M. Fife of 517 North Jackson street have sold their seven-room bungalow at 314 North Orange street to Mr. and Mrs. John B. Moule of 207 North Kenwood street.

Mr. and Mrs. T. A. Morgan of 1123 East Broadway have had as their guests for a few days Mr. and Mrs. F. E. Forester, Mr. and Mrs. Maurice Forester and Miss Bessie Forester all of Pueblo, Colo., who are touring the coast country.

Interest of the music lovers of Glendale has been aroused by the announcement of the splendid program which is to be presented at the Community Night concert in the Glendale Union High school auditorium tonight.

Norman E. Otis, former young business man of Glendale, visited friends here the first part of the week. Mr. Otis will be remembered for his pleasing bass voice, having appeared before local audiences many times.

W. N. Stamps of 436 West Colorado street has returned from a week's stay at his ranch at Encino, which is on the state highway near Marion. While there Mr. Stamps set out a number of young orange trees.

The Mothers' club of the Acacia street school met yesterday afternoon at the home of Mrs. E. W. Evans, 1214 South Mariposa street. Sewing for the May festival, which is to be given by the Federation of Parent-Teacher associations, May 20, occupied the greater portion of the afternoon, at the close of which refreshments were served. Members present included Mrs. O. W. Esselman, Mrs. Clark, Mrs. F. G. Hartman, Mrs. F. A. Alspach, Mrs. Irving Oliver, Mrs. William Alexander, Mrs. Stine, Mrs. Julian Bennett and Mrs. E. W. Evans.

## Locals And Personals

Van Bowes of Long Beach, district manager of the Tribe of Ben Hur, was a visitor at the Glendale Chamber of Commerce headquarters here yesterday.

An interesting meeting of the General Richard Gridley chapter, Daughters of the American Revolution, was held yesterday afternoon at the home of Mrs. John Hyde Braly.

S. Kabori of Tropico reported to the police this morning that the truck which he was driving at San Fernando and Los Feliz Roads was damaged in a collision with another machine driven by Art Johnson of Los Angeles.

Mr. and Mrs. D. H. Dockstader of Huntington Park are the guests of Mr. and Mrs. J. F. Swisher of 336 North Orange street and are attending the John Brown Tabernacle services. Mrs. Dockstader is Mrs Swisher's sister.

Susie Purdy was reported missing from the home of Thomas Ireland, 807 East Windsor Road, by her sister-in-law who asked the police to investigate late last night. She is described as being 20 years of age, 5 feet 6 inches in height, dark blue eyes and dark hair and was wearing a black coat, black dress and black brimmed hat when she left home in the morning to visit her husband at Patton.

The Mary Olive Needleywork society met Wednesday afternoon at the home of Mrs. A. D. Hurd, 110 South Adams street, with all members present. The mascot, little baby Mary Olive Davis, who has been critically ill, was able to be present and was a joy to the members. Many new ideas on fancy work were brought before the society. Delicious refreshments were served by the hostess and a pleasant afternoon was spent.

Mrs. Robert Lyons of 511 North Jackson street entertained with a little folks' party Wednesday afternoon, May 4, in celebration of the eighth birthday anniversary of her daughter Jean. Guests present included Dorothy Clark, Catherine Peck, Lottie Hudson, Albert Newton, Merle Newton, Russell Newton, Jack McCartney, Mildred Fife, Fern Johnson, Helen McCormick, Mildred Randolph and Jean Lyons. Games occupied the greater part of the afternoon, at the close of which refreshments were served. A pink and white color scheme was carried out in the decorations and refreshments. Little Jean received many gifts from her friends as a birthday token.

## GLENDALE FOLK TO GO ON OVERLAND AUTO JOURNEY

SIX MONTHS WILL BE SPENT IN WANDERING ON ROADS; PLAN CANADA VISIT

One of the most novel overland automobile tours ever undertaken is the one being planned by several local citizens and which is scheduled to begin next week. Those who will make up the unique party are Mr. and Mrs. J. A. Peebles and their two small children of 126 North Cedar street and F. H. Reed of 123 South Belmont street. Complete arrangements have been made to camp out during the entire trip, which will last from six months to a year and will take the wanderers over thousands of miles in the United States and Canada.

Weather permitting, the travelers will leave Glendale on the first leg of their journey next Monday morning. The first stop will be made in Fresno, where they will visit Mr. and Mrs. Lee Hollingsworth, former residents of Glendale. From there they will drive north through Oregon and Washington, and then turn toward the east. From Washington the route will lead through Idaho and Montana to the Yellowstone National park. While in Idaho they will visit Mr. Peebles' sister.

**To Visit in Canada**

The motorists will then head for Richfield, Ill., which town is the home of Mr. Reed's parents. The route from Yellowstone Park will lead through the Dakotas, Minnesota and Wisconsin.

After leaving Richfield they will cross Michigan into Canada; several weeks will be spent in Toronto at the home of the parents of Mr. Peebles. The return trip will take them as far east as Niagara Falls and thence home by an almost direct route.

Mr. Reed, who has been a resident of Glendale about fifteen years, has been employed by the Southern California Gas company of this city for ten years, and has been granted an unlimited leave of absence for his novel vacation. Mr. Peebles has been employed by one of the large shoe stores in Los Angeles.

No Japanese wishes the figures 42 or 49 associated with his business of private affairs. "Shini," which means to die, and "shiku," which means death, are the Japanese words for the figures mentioned.

## Colorado School P.-T.A. Elects New Officials

The regular meeting of the Colorado street Parent-Teachers' association was held Wednesday at the school building, with Mrs. W. H. Dotson, president, in the chair.

After hearing the report of the nominating committee, the following officers were elected for the coming year:

President, Mrs. E. S. McKee; vice-president, Mrs. L. S. Lewis; secretary, Mrs. C. M. Cronkhite; treasurer, Mrs. D. W. Brant.

A letter, from the committee on school bonds, was read to the members present, asking their co-operation in the coming election. At this time a committee was appointed to help boost the bonds. This committee includes Mrs. E. S. McKee, chairman; Mrs. D. W. Brant and Mrs. L. S. Lewis.

Mrs. B. L. Cline and Mrs. C. M. Cronkhite gave brief but interesting reports of the First District Convention of the P.-T. A. held in Los Angeles April 27-29.

Another event, for which willing workers are needed, is the May Festival to be held at the John Robert White home this month. The following committee was appointed to help with this work:

Mrs. W. H. Dotson, chairman; Mrs. C. A. Perry, Mrs. R. V. Hogue, Mrs. A. H. Fuelscher.

Miss Rebecca Brant gave two splendid selections on the piano.

Miss Ida Waite and her staff of teachers at the Colorado street school will have charge of the next meeting and everyone is assured of a good time.

## This Device Detects Faulty Spark Plugs

This is a spark plug tester designed to locate instantly plugs which are not operating at full efficiency. To use, one wire of the tester is placed against the terminal cap and the other is applied to the bushing. When the plug is in working order a fat spark jumps acros the gap in the tester; but when it is inoperative, no spark occurs. Varying degrees of efficiency are disclosed by the quality of the spark.

## La Crescenta Notes

The $20,000 school bond election held last Friday was carried unanimously. This is the second school bond election held in La Crescenta without a dissenting vote. The trustees, H. A. Baldridge, Mrs. Ellen B. Pease and Fred H. Anderson will immediately purchase more ground and enlarge the present building.

One of the interesting events of the past week was a barn dance given by Mr. and Mrs. H. Fowler of Los Angeles avenue. Baskets of May flowers were used in decorating their attractive home. There were eighty guests—many from Los Angeles, Glendale and Hollywood.

A little daughter born the 23d of April is the cause of congratulating Mr. and Mrs. W. Sculley of Honolulu avenue.

Miss Jessie S. Conlin was hostess to a slumber party and breakfast last Saturday. Among the out-of-town guests were Miss Mildred Bengloe of Bakersfield and Miss Mildred Meeker of Glendale.

The La Crescenta Improvement association held its regular monthly meeting last night. President C. Czerniski and Secretary C. E. Culberson gave an interesting account of the work being done, Ocean View being under construction now and the street lights will be in operation in a few weeks. Much credit is due the present officers of the association. The most enjoyable part of the evening was the talks made by E. S. Kellog of the Pasadena Evening Post and James W. Foley, the noted poet. The evening will be long remembered by those fortunate enough to be present.

Mr. and Mrs. A. Herff of San Antonio, Texas, spent the past week with Mr. and Mrs. C. Czneriski of Michigan avenue. Mr. and Mrs. Herff are on their way to Honolulu.

Mr. and Mrs. A. Baxter and Mrs. E. Middlejohn of New York are visiting their parents, Mr. and Mrs. O. Erison.

The regular meeting of the La Crescenta Woman's club will be for members only as there will be election of officers.

Mrs. A. C. Cobb, Mary Cobb, Mr. and Mrs. R. L. Skinner of Los Angeles, Dick Hodges of Pasadena and Mr. and Mrs. Allen Fairchild were dinner guests of Mr. and Mrs. T. S. Minford last Sunday.

Lawrence Enochson of Montrose had his ankle and leg severely sprained, when the benches fell at the circus at La Crescenta on Wednesday evening, and will be compelled to remain in bed for some days.

A. B. Summers of Montrose, who is in a Los Angeles hospital undergoing a severe operation, is doing nicely.

Miss Helen Matthewson of Montrose expects to leave shortly for the east, on her way she will visit her old home in Omaha, Neb.

Mrs. Margaret A. Sanders is spending a couple of months with her married daughter at Balboa.

Horace F. Alden's new house in Montrose is nearing completion, and promises to add to the beauty of the place a great deal.

## Walking Ad in Grass Skirt Is Set on Fire

DES MOINES, Iowa—Charles Cain makes his living as a walking advertising signboard. For several days he paraded the streets of Des Moines with bare knees and wearing a skirt of imitation dried grass and hay, advertising a theatre. He closed his contract suddenly last night when an unidentified person touched a lighted match to the lower part of the skirt. Firemen finally caught him and extinguished the blaze. Today he was confined, face downward, to his bed.

The present Japanese dynasty is by far the oldest in the world, for Yoshihito claims to be the 122nd monarch of an unbroken line, dating from the seventh century before the Christian era.

Chinese annals claim antiquity of 80,000 to 100,000 years for their empire.

## Paul Max Zabel, Age 35 Years, Is Called

Paul Max Zabel, aged 35 years, passed away this morning at 7:40 at his home, 601 South Vermont avenue, Los Angeles. Until a year ago Mr. Zabel was a resident of Glendale. He was a native of Wisconsin. Mr. Zabel leaves a widow, Mrs. May Zabel. Funeral services will be held tomorrow afternoon at 2 o'clock at Forest Lawn cemetery, Reverend W. E. Edmonds officiating. The services will be in charge of the Glendale Lodge of Elks, of which Mr. Zabel was a member. Pulliam & Kiefer Undertaking company, directors.

The horse has no eyebrows.

## Steady Gain Shown In Light, Water Meters

J. F. McIntyre, commercial agent of the municipal public service department, reports that there has been a gain of 134 water meters and 124 light meters during the month of April, bringing the total to 5,167 water connections in this city and 5,847 electric light services. As the latter represents homes principally, one can easily judge the population of Glendale to be in the neighborhood of 20,000 now. On March 1 figures compiled by Mr. McIntyre indicated that there are 18,000 people residing here.

The albatross is the largest of the sea birds.

## Notice Inviting Sealed Proposals

Pursuant to the provisions of the Improvement Act of 1911 and Resolution No. 1187 of the Board of Trustees of the City of Glendale, California, adopted the 5th day of May, 1921, directing this Notice, the undersigned invites and will receive at his office in the City Hall up to 8:00 p. m. of Thursday, the 19th day of May, 1921, Sealed proposals or bids for the following Improvement to be done according to plans and specifications adopted for said work, posted and on file to-wit:

First: That Arden Avenue between the westerly curb line of Central Avenue and the easterly curb line of Pacific Avenue, including all intersections of streets and alleys, except those portions as are already graded to the official line and grade, be graded to the official grade heretofore established therefor, the same to be done in accordance with plans and cross-sections No. 386, Profile No. 745, and Specifications for said work adopted by Resolution No. 1126 of the Board of Trustees of the City of Glendale and known as Specifications No. 34.

Second: That a cement sidewalk of the width of five (5) feet be constructed along each side of Arden Avenue from the westerly curb line of Central Avenue to the easterly curb line of Pacific Avenue, except where sidewalk is already constructed to the official line and grade and is in good condition. Said work to be done in accordance with plans and cross-sections No. 386, Profile No. 745, and Specifications for said work adopted by Resolution No. 1139 of the Board of Trustees of the City of Glendale and known as Specifications No. 31.

Third: That a cement curb of the class designated as Class "B" in the hereinafter referred to Specifications be constructed along each side of the roadway of Arden Avenue from the westerly curb line of Central Avenue to the easterly curb line of Pacific Avenue, including all returns of all intersecting streets and alleys, except where said curbs have already been constructed to official line and grade and are in good condition. Said curbs shall be constructed in accordance with plans and cross-section No. 386, Profile No. 745, and in accordance with Specifications for said work adopted by Resolution No. 1139 of the Board of Trustees of the City of Glendale and known as Specifications No. 31.

Fourth: That all the roadway of Arden Avenue between curb lines from the westerly curb line of Central Avenue to the easterly curb line of Pacific Avenue, including all intersections of streets and alleys be oiled and surfaced in accordance with plans and cross-section No. 386, Profile No. 745, and Specifications for said work adopted by Resolution No. 1126 of the Board of Trustees of the City of Glendale and known as Specifications No. 34.

That said contemplated work or improvement in the opinion of said Board of Trustees is of more than local or ordinary public benefit and will effect and benefit the lands and district hereinafter described and said Board of Trustees hereby declares that the district in said City of Glendale benefited by said work or improvement and to be assessed to pay the costs and expenses thereof is all that portion of said city included within the following exterior boundary lines, to-wit:

Beginning at a point on the westerly line of Central Avenue one hundred and sixty-three and thirty-two hundredths (163.32) feet northerly from the northerly line of Arden Avenue; thence westerly in a direct line parallel with the northerly line of Arden Avenue to the easterly line of Columbus Avenue; thence westerly in a direct line across Columbus Avenue to a point on the westerly line of Columbus Avenue one hundred sixty-three and thirty-two hundredths (163.32) feet northerly from the northerly line of Arden Avenue; thence westerly in a direct line to a point on the easterly line of Pacific Avenue one hundred thirty and fifty hundredths (130.50) feet northerly from the northerly line of Arden Avenue; thence southerly along the easterly line of Pacific Avenue to the northeast corner of Arden and Pacific Avenues; thence in a direct line across Arden Avenue to the southeast corner of Arden Avenue and Pacific Avenue; thence southerly along the easterly line of Pacific Avenue one hundred and sixty-six (166) feet; thence easterly parallel with the southerly line of Arden Avenue to the westerly line of Columbus Avenue; thence easterly in a direct line across Columbus Avenue to a point on the easterly line of Columbus Avenue one hundred and sixty-six (166) feet southerly from the southerly line of Arden Avenue; thence easterly parallel with the southerly line of Arden Avenue to the westerly line of Central Avenue; thence northerly along the westerly line of Central Avenue to the point of beginning, excepting therefrom any portion of any public street or alley which may be included in the above described district. Reference is hereby made to Map No. 387 in which the assessment district referred to is shown within Red colored bordered lines.

The Board of Trustees of the City of Glendale determines that serial bonds shall be issued to represent assessments of Twenty-five ($25.00) Dollars or over for the cost of said work or improvement; said serial bonds shall extend over a period ending nine (9) years from and after the second day of January next succeeding the date of said bonds, and an even annual proportion of the principal sum thereof shall be payable by coupon on the second day of January, every year after their date until the whole is paid; and the interest shall be payable semi-annually by coupon on the second days of January and July respectively of each year, at the rate of seven per cent per annum on all sums unpaid until the whole of said principal and interest are paid. All of the herein proposed work shall be done in pursuance of an Act of the Legislature of the State of California designated as the "Improvement Act of 1911," approved April 7, 1911, and amendments thereto.

Reference is hereby made to Resolution of Intention No. 1140, passed by the Board of Trustees of said City for further particulars of said work.

Bidders must file with each proposal or bid a check payable to the City of Glendale, certified by a responsible bank, for an amount which shall not be less than ten per cent of the aggregate of the proposal or a bond for said amount and so payable, signed by the bidder and two sureties, who shall justify before any officer competent to administer oaths, for double the said amount and over and above all statutory exemptions.

In bidding use blanks which will be furnished by the City Clerk upon application.

Dated, May 6th, 1921.

J. C. SHERER,
City Clerk of the City of Glendale

209t2

## Fred W. Evans Pays Visit To His Grove

Fred W. Evans, who with his wife and little girl has been spending the last several months with his sister, Mrs. W. A. Miles of 914 Randolph street, motored to San Fernando a few days ago to look over his orange grove in that city. Mr. and Mrs. Evans are planning to move into their beautiful new home in Hollywood in the near future.

# ALL EXPENSES FOR REVIVAL MEETING MET, IS REPORT

FINANCIAL STATEMENT FROM CHAIRMAN E. E. OSGOOD; COLLECTION SUNDAY

**Friday, 4 P. M.—Children's Meeting.**
**Friday, 6:45 P. M.—Prayer Meeting.**
**Friday, 7:30 P. M.—Subject, "Crossing the Dead Line," young folks rally.**
**Saturday, 2:30 P. M.—Subject, "Women and Girls, the Devil's Decoys."**
**Saturday, 6:45 P. M.—Prayer Meeting.**
**Saturday, 7:30 P. M.—Everybody's Meeting.**

That the Glendale people are interested in the tabernacle meetings was demonstrated last night when the large building was two-thirds filled in spite of the cold rain.

This was especially true of J. O. C. class of young married women of the First Methodist Episcopal church. Out of an enrollment of about 100 seventy-five were present last evening. The largest delegation of any so far.

The audience actually clapped in expression of thankfullness for the showers, although at times the heavy patter upon the roof made hearing difficult.

A financial report made by E. E. Osgood, the financial chairman, brought the gratifying news that the collections had met all the expenses with $100 over.

Evangelist John Brown considered that a most excellent record, and scarcely excelled in his experience.

**To Take Free Will Offering**

The question of compensation for Mr. Brown was considered and arrangements made to take a free will offering on Sunday. The time is up Sunday, but the interest is such that the party may stay Monday, Tuesday and Wednesday.

Two more mass meetings are arranged for Sunday, one for women in the First Methodist church, to be addressed by Mrs. Neth; one for men in the tabernacle, to be addressed by Mr. Brown, subject, "Chickens Come Home to Roost," preceded by a men's parade which will form in front of the high school at 2:30 and march up Brand to Wilson and continue to the tabernacle.

Owing to the rain the subject for last night was changed and instead of speaking on "Memory" the evangelist gave an interesting talk on "An earthquake and a prayer meeting, or Paul and Silas in Prison," as recorded in the sixteenth chapter of Acts. The text was the twenty-fifth verse, "And at midnight Paul and Silas prayed and sang praises unto God."

## Twenty-nine Million For European Relief

NEW YORK — Approximately $29,000,000 was contributed by the people of the United States to the European Relief council, Herbert Hoover, chairman, in the campaign for funds to provide food until next harvest for 3,500,000 starving children in Central and Eastern Europe. The figure was obtained after a recheck of all reports at national headquarters yesterday.

Because the price of food has declined, the money realized will be sufficient to carry out the council's program. Before the price decline $32,000,000 had been fixed as a minimum. The campaign closed April 1. Not all reports, however, are complete.

The state organizations which conducted the campaigns in the several states have turned in $18,000,000. This does not include $1,200,000 in definite pledges from community chests and similar sources where the money is available but not yet forwarded. An additional $500,000 is expected piecemeal from the states through the forwarding of funds from towns, cities and counties. The Jewish joint distribution committee gave the council's fund $2,100,000, the American relief administration $2,100,000 and the American Red Cross $5,000,000.

## R. L. Kent To Make Plans For Building

At a meeting of the temporary directors of the Citizens' Building corporation at the Chamber of Commerce rooms last night R. L. Kent of the R. L. Kent company was instructed to proceed with plans for their store room and Chamber of Commerce office building to be erected opposite The Glendale Evening News office. E. U. Emery presided and James M. Rhoades is acting secretary of the organization. Others present were J. G. Huntley, W. G. Lauderdale and Attorney Owen C. Emery.

The work of a man's heart is illustrated thus: The powerful pump of the left ventricle performs, during twenty-four hours, an amount equal to raising one ton to a height of 82 feet.

# CLAUDE G. PUTNAM'S HOME DECORATED VERY UNIQUELY

PIONEER RESIDENCE BROUGHT TO MODERNIZED STATE BY COMMERCIAL ARTIST

Claude G. Putnam, a commercial artist, with his family who reside at 327 East Chestnut street, will move into his newly-acquired home on North Glendale avenue, near Lexington, the middle of May. It is one of the oldest structures in this city, having been built forty years ago of stone, but under the deft direction of Mr. Putnam, the artistic touch has been lent to the ancient walls and halls until now it is one of the most uniquely decorated residences in Glendale.

While the J. A. Newton Electric company has been installing such curiosities as Chinese lanterns and Roman candles in the way of electric fixtures, G. Whitney has been remodeling the place from a carpenter's standpoint and M. E. Van Bentheusen is the decorator in charge.

**Many Unique Features**

Among the many features of the house, the ceilings of which are ten feet high, will be the new sanded maple floor in the living room, dining room and den which open into one and can be used for dancing. French windows and doors open to a veranda which encircles the house, giving every room an exit with the exception of one.

The fireplace which has been built in is of old English style and will be decorated by Jacob Fink with the Putnam coat of arms. In the great living room Mr. Van Bentheusen has just completed the papering which is of leatherette in harmony with the five-coat enamel, antique, ivory finish which is lighted with blue, red and gold.

A front bedroom is done in embossed, cream-colored paper, and a rear bedroom has a beautiful cockatoo design and four-coat ivory finish. A child's bedroom has a blue bird paper that is interesting as well as pretty. Indeed, from a decorative standpoint the interior is a work of art.

**Completely Modernized**

Electric plugs are conveniently located throughout the old Harness home place for heat and the bathroom has been remodeled by Mr. Putnam so that the tub and shower are both built in. In the kitchen built-in features also prevail, there being a holster or kitchen cabinet that would make many women envious of the conveniences afforded Mrs. Putnam.

A maid's room and wash room at the rear complete the nine-room home that may be old in years but young in ideas. Already Mrs. Putnam is assembling the draperies for the place and her husband is planning improvements for the exterior which will make it a home over which anyone should be "delighted."

# LITTLE PRINCESS IS WELL PRESENTED BY CHILDREN

MATINEE IS ENJOYED AND BIG CROWD WILL BE PRESENT AT TONIGHT'S SHOWING

You will like "The Little Princess" which is being presented at the Palace Grand theatre this afternoon and evening by the students of the Pearl Keller school.

In the first place there is no one who doesn't love to see a dainty, talented child perform. And everyone knows how well they learn to dance under the tutelage of Pearl Keller.

Then everyone likes to hear good music, sweet songs of childhood; little recitations and play, which has just enough "old folks" in it to make it convincing.

And the kiddies, well, they'll laugh themselves sick at the antics of a monkey borrowed from Universal City for this production.

**Big Demand for Tickets**

Tickets are selling fast for tonight's performance and the seating capacity of the Palace Grand is limited, so be there early.

This afternoon the wounded veterans at Thornycroft are special guests at the show, for they are very well acquainted with the little dancers who entertain them ever so often.

If the dress rehearsal is any criterion of what may be expected today, "The Little Princess" is a great success. Cecilia Mae Fischer has the title role and is ably supported by clever Glendale kiddies and grown-ups.

## George B. Woodburry Chosen For Appraiser

George B. Woodburry was last night at the meeting of the board of city trustees chosen, on motion of Trustee Spencer Robinson, to represent the city of Glendale in the appraisement of property owned by the Verdugo Water company and desired by the city by purchase. The action was taken on the following communication from T. W. Watson, city manager:

"Pursuant to action of your board, April 14, 1921, instructing city representatives on the board of directors of the Verdugo Canyon Water company to vote in favor of the appointment of a board of three to appraise the property of the Verdugo Canyon Water company, this matter was taken up at the meeting of such board held Friday, the 29th of April, and a motion was duly passed by the board authorizing the appointment of appraisers in accordance with your action. J. C. Sherer was appointed to represent the interests other than the city. In accordance with your action of April 14 it would be in order for your board to appoint an appraiser to represent the city's interest in this connection."

To be perfectly proportioned a man should weigh 28 pounds for each foot of his height.

## Measure Is Opposed By Illinois Barbers

CHICAGO—Illinois barbers are on the warpath against a bit of legislation which they claim would take away their revenue from massaging and shampooing the public.

The bill, introduced by State Representative Krump, would place all "cosmetic therapy" in the hands of licensed facial practitioners. Barbers claim it would force many shops out of business.

## Death Warning Given To Reckless Drivers

MIDDLETON, N. Y.—On either side of Otterkill bridge, on the state road between Goshen and Chester, the Board of Trade of Goshen has erected large signs bearing the following inscription:

"Private cemetery across the bridge for reckless drivers."

The sign is in black and white, decorated with skull and crossbones.

### I. O. O. F. MEETING

Glendale Lodge, No. 388, will confer the initiatory degree on the evenings of April 28th, May 5th and May 12th. A hearty welcome for visiting brothers and newcomers.

If a girl has lived happy ever before marriage, why hurry to be "married and live happy ever after," especially since maybe she won't?

An optimist is a business man who in spite of all his experience, expects to find good news in the mail he receives on the first day of the month.

Fishermen in Siam use boats with low sloping sides, painted white, which frighten the fish so that they leap over the sides of the vessel into nets.

# UNDERGROUND LINES LOSE PATRONAGE OF PARISIANS

**FRENCH FOLK SEEK SUNSHINE AND PURE AIR; RIDE ON BUSES AND TRAMWAYS**

By EDWIN W. HULLINGER
United Press Staff Correspondent

PARIS—Parisian business men, laborers and shop girls prefer to ride home from work midst sunshine and pure air—in other words, in omnibuses and tramways—than descend into the gloom and foul odors of the subways.

Transportation statistics furnished the United Press by the Paris municipal bureau shows that underground railways lost 40,000,000 passengers during 1920 alone. A large proportion of these shifted to the omnibuses, despite the fact that the buses charge higher fares.

Surface means of transport are crowding underground lines increasingly and steadily in Paris. Last year 560,000,000 rode in tramways and 180,000,000 in omnibuses, as compared to a total of 560,000,000 in the two subway system, the Metro and the Nord Sud.

And Paris' remarkable street car and omnibus lines are still behind what they were before the war. A number of pre-war routes have not been replaced, and there is lack of cars and buses on the lines which are operating.

**Speedier and More Direct**

Officials attribute the popularity of the buses both to the fact that they are speedier and more direct and to the more pleasant conditions of travel. There is no question of better advertising or competition, because all lines in Paris are owned by the city.

Fares have doubled, both surface and underground, since the end of the war. Subways now charge 30 centimes for second tickets and 50 for first-class. Omnibus fares (short rides) average 25 to 50 centimes while tramways range from 18 to 25 centimes.

Both street railways and subways were operated at heavy loss until January, 1921, the deficits running from 20 to 40 per cent. Owing to the slump of 30 per cent in the price of coal, however, executives hope to make the ledgers nearly balance this year.

It would not be accurate, however, to pretend that surface lines are "superceding" underground railways or threaten the latter with extinction.

**Fine Surface Railway System**

Paris has the finest and most extensive surface railway system of any city in Europe. It embraces about 300 kilometers of track, as compared to the subways total of only 112 kilometers. The cars are airy and roomy, and there is far less congestion during busy hours than in most cities of much less size.

Paris' omnibus system represents a course of about 180 kilometers, covered by approximately 1000 buses.

The street railways reach far out into the suburbs, while both subways and omnibuses stop at the city ways. Important extensions of both the latter, however, are contemplated as soon as the dismantling of the fortifications is completed. This will open up new sections for flat-building purposes, and relieve the apartment famine.

Parisian omnibuses are one-story. In appearance they are a cross between a street car and an old-fashioned prairie schooner. The compartment is divided into first and second-class sections, the former being equipped with upholstered leather seats.

**Lined Up in Advance**

They stop at pre-arranged stopping points. During rush hours passengers are required to line up in advance, the first to arrive being the first on.

The question of who came first is settled by numbered coupons, attached in series on a nearby lamppost for each passenger to grab as he steps up.

When the bus comes along, the conductor calls for the lowest number first, then the next, etc. Then nobody else gets on until someone alights.

Although no street cars run on the Grands Boulevards, Paris' great central artery, omnibuses by the hundred lumber from the Madeleine to the Bastille.

## Says Boy Of Today Different From Others

MORGANTOWN, W. Va.—Dr. A. M. Reese of the department of zoology of West Virginia says the American boy of today is different. In spite of the fact that it was liberally advertised that the department would pay 25 cents for each rat brought in, only one boy was on the job.

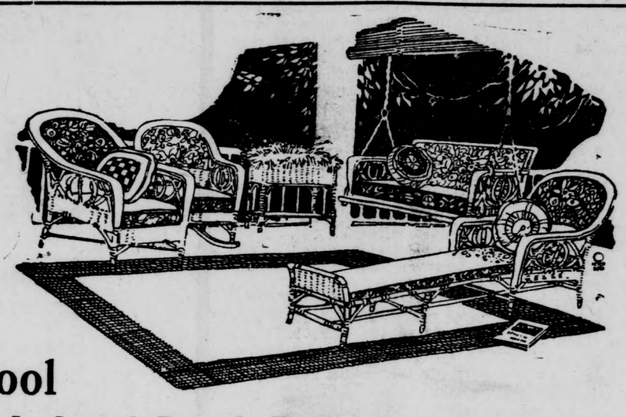
Gold was used by the Romans for filling teeth about 500 years prior to the Christian era.

Thunders of public applause are oft followed by showers of public censure.

# Spring Furniture at the Lowest Prices In Many a Year

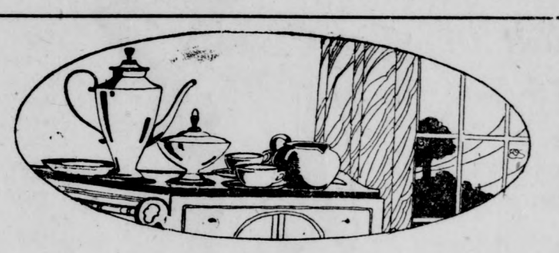
These are days when homes everywhere are looking for the newer ideas in artistic home furnishings. The breath of spring is in the air, the very atmosphere is filled with the unfolding beauty of nature and the coming of spring. And homes are reflecting this awakening to new life in the distinct demand for new and better furniture. We invite you to come in and see the wonderful assemblage of new furniture now on display at lower prices than for many a year.

Perhaps you are looking for an odd chair or rocker for your living room, or a new rug, a comfortable davenport, a kitchen cabinet, refrigerator or any of the many things that will make housekeeping easier during the coming spring and summer. You will find the very latest in new furniture on display here and the readjusted level of prices downward will be of genuine interest to every thrifty-minded man and woman in the city.



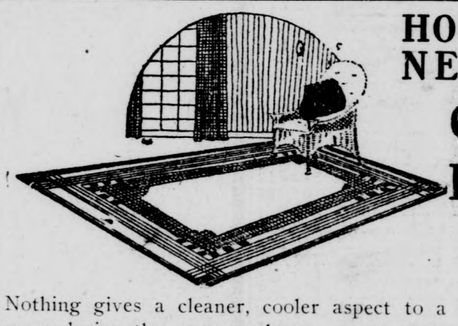
**Cool Delightful Porch Furniture for Summer**

We are now ready with a complete display of porch chairs and rockers, porch swings, hammocks, fibre tables, settees, etc. Every piece is priced at the new low levels.



**Attractive Breakfast Room Suites**

These delightful spring mornings as well as all through the summer it gives your appetite zest to eat breakfast in a cool, dainty breakfast room. We are offering some mighty attractive little Breakfast Room Suites—well made and handsomely finished for exceptionally moderate prices.



**HOW ABOUT A NEW GRASS RUG?**

Nothing gives a cleaner, cooler aspect to a room during the summer than a pretty grass rug. We have a wonderfully well chosen showing of grass rugs and we know you'll enjoy seeing them whether you buy or not.
In addition to grass rugs we keep an assortment of all sizes and grades in Brussels, Axminister and Oriental rugs.

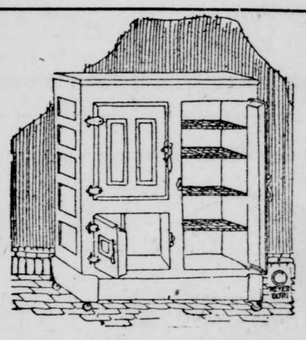
**Now's the Time to Buy Your Refrigerator**



Summertime is Refrigerator time. See our windows for an idea of the variety of sizes and models in refrigerators at this store—then come and inspect our stock. You'll find we can give you real value in ice-saving refrigerators of quality.

## Excursion Trips To Experiment Station

The first of the four Farm Bureau excursion trips to the Citrus Experiment Station at Riverside arranged for by the Agricultural Extension Service and held one each in May, June, July and August, has been definitely set for Friday, May 13. Citrus growers of Los Angeles county are much interested in the experimental work under way at the Citrus Experiment station and it is for the purpose of having this work discussed with them and what information has been accumulated during the past year presented that this series of trips has been arranged for.

The Experiment Station authorities will entertain the excursion at the new Experiment Station on the Box Springs road, just southeast of Riverside. Detailed plans for assembling of the trip will be announced later, but those desiring to meet with the party can do so by arranging to be at the Experiment Station by 10 o'clock, Friday morning, May 13.

## Immigration Report Shows Big Decrease

WASHINGTON — Germany, Austria, Ireland and Russia, natives of which made up more than 59 per cent of the country's total foreign-born population ten years ago, showed heavy losses in the number of their natives in the United States during the last ten years, Immigration Bureau statistics show. The losses aggregated almost 2,000,000 and are believed to have been due largely to the World war.

German-born showed a loss of 818,035; Austria-born, a loss of 600,014; Irish born, a loss of 316,571, and Russian-born, a loss of 203,783. Notwithstanding this heavy loss, the country's total foreign-born population, as just announced in a preliminary statement prepared for congress, showed an increase of 358,442, or 2.6 per cent, the total number of foreign-born being 13,703,987. The increase is believed to have been the smallest both in number and percentage ever recorded for any decade.

American students in architecture, landscape architecture and engineering will devote their vacation time to repairing the devastated regions of France, under the direction of French officials.

## Demonstrations Upon Pruning Are Planned

During May, the Agricultural Extension Service, in co-operation with the various Farm Bureau centers in decidudous fruit districts, is to hold a series of seven summer pruning demonstrations. The proper method for summer pruning treatment will be demonstrated and general problems of summer care of deciduous fruit orchards discussed. It was hoped that Dr. J. C. Whitten would be able to be present at these meetings, but recent information is to the effect that it is doubtful whether he can attend. The meetings will be conducted by Farm Advisor Hodgson and Assistant Farm Advisor Blanchard.

The schedule for the series is as follows:

May 10, 2 p. m., Downey, meet at Gallatin school, later going to nearby orchard.

May 11, 10 a. m., Owensmouth, place of J. C. Craig, two miles east of Owensmouth on Sherman Way.

1:30 p. m., Zelzah, place of G. A. Allard, one-fourth mile off Reseda avenue on Regan street.

May 12, 10 a. m., Lankershim, place of F. L. Williamson, 12309 El Nido street, west of Pacoima and east of Wittsett streets.

2 p. m., Van Nuys, place of W. F. Clarke, Van Owen and Woodman streets.

May 16, 9:30 a. m., La Canada, place of B. J. Kirst, north of east end of Michigan avenue.

2 p. m., Pomona, place of H. W. Hall, Reservoir and Philadelphia streets.

## Huge Sum Piles Up In U. S. Savings Banks

WASHINGTON, May 6.—Savings accounts in America's banks now total approximately $6,500,000,000, it was estimated today on the basis of data gathered by the comptroller of the currency. Before the war savings accounts totalled only about $3,000,000,000.

Despite widespread unemployment and the economic depression, men and women in every section of the country now are holding fast to habits of thrift begun during the war and piling up additional millions saved, according to Acting Director O. C. Lester of the thrift division of the treasury department.

## Man Crippled, Wife Is Sent To Asylum

SACRAMENTO—A year ago, Mrs. Lena Faick and her husband sold their little farm in Yuba county and set out on the long trip to Germany. They had lived in California many years and with the sale of their property had a little nest egg which would take care of them in the land of their birth until the end. The war was over and they could return

The couple arrived in New York, from which port they were going to sail. They purchased the tickets and waited the date of sailing.

On the morning of the day in which they were to leave the United States, they started out on a short tour of New York City.

The aged couple wandered into Wall Street. Then came the explosion of a bomb in that street which wrecked buildings and left dead and dying about the streets. Mrs. Faick was struck in the leg by a piece of flying metal and her husband was seriously wounded about the body by the explosion. They both spent several months in a New York hospital. Mrs. Faick was cured of her wound, but her husband's wounds were found incurable.

Soon their little nest egg had dwindled away. There was just enough left to return to California and Yuba county. Mr. Faick was placed in the Yuba county hospital, crippled for the rest of his life by the explosion.

The finale was given to the tragedy this week when Mrs. Faick was sent to the Stockton Insane Asylum by Judge C. O. Busick after having been adjudged insane. Alienists declared the shock of the explosion and the ensuing trouble caused the mental derangement. Mrs. Faick was taken into custody by detectives here at the Western hotel. According to the detectives, she claimed undertakers with coffins were waiting in the street for her.

The Montana senate has passed a bill providing for a special tax of $3 annually on all bachelors residing in that state, the proceeds of the tax to be paid into the widows' pension fund.

The Maine blue-sky law is so strictly enforced that many companies which have no difficulty in securing licenses to offer their securities in other blue-sky states have to resort to the medium of the mails to transact business in that state.

# U. S. NAVY TO SEND GIANT SEAPLANE CROSS PACIFIC

**CRAFT EXPECTED TO MAKE 110 MILES PER HOUR; ROUTE IS TENTATIVELY DECIDED**

By HAROLD D. JACOBS
(United Press Staff Correspondent)
(Copyright, 1921, by the United Press.)

NEW YORK—The United States navy, first to make a trans-Atlantic flight, will send a giant seaplane winging across the Pacific late this summer or early next spring.

The triplane, which will be known as the "giant boat" has been under design and construction for more than a year. The wings and "hull" are being made at the naval aircraft factory, Philadelphia. The motors and nacelles or bodies, are being turned out by the Gallaudet aircraft corporation at East Greenwich, Conn.

The propellers are being built by the American Propeller company.

The time of the flight will depend upon when the craft is completed and upon the results of the exhaustive tests to which the "giant boat" will be subjected. It is planned to begin assembling the plane in June or July.

**This Is Proposed Route**

The tentative route is: San Diego, Cal., to Honolulu, Hawaii Islands, 2100 miles; Honolulu to Wake Islands, 1800 miles; Wake Islands to Guam, 1100 miles; Guam to Manila, P. I., 1200 miles.

This is a total of 6200 miles. Whether the plane would continue to the Asian mainland has not yet been determined. The longest single "hop" of the historic NC-4, in 1919, was from Nova Scotia to the Azores, a distance of 1100 miles.

The "giant boat" will have a wing spread of 167 feet and will have three propellers, each driven by three four-hundred horse power motors developing a total of 3600 horsepower. Each of the three nacelles will contain the Gallaudet gear drive, making possible the connection of three motors with each propeller. Any motor may be disengaged without interfering with the operation of the propeller.

**May Make 110 Miles Per Hour**

The motors will be placed in an enclosed area, giving the mechanics opportunity to make any repairs without danger of inconvenience.

A trial seaplane driven by a single motor under this new type of construction recently made 132.3 miles an hour. It was driven by Lieut. E. F. Stone, one of the NC-4 pilots. The plane climbed 7700 feet in ten minutes.

The "giant boat" probably will be able to make 110 miles an hour. It will have a lifting capacity of 30,000 pounds and a cruising radius of 3000 miles without fuel replenishment. The crew probably will consist of at least twelve men.

# HERE ARE FACTS ON GLENDALE'S GREAT PROSPERITY

**MATTERS OF INTEREST WHICH ARE BASIS FOR QUESTIONS MANY TIMES DAILY**

Believing that the many new residents of Glendale are vitally interested in the statistical facts concerning the city of their adoption, The Evening News presents below a few concrete items of this kind. These all pertain to matters concerning which many inquiries are made by newcomers:

| | |
|---|---|
| Population, 1910 | 2,742 |
| Population, 1920 | 13,356 |
| Population, 1921 | 15,657 |

## Divorce Too Costly For Ordinary People

CHICAGO—The world's "fed up" on H. C. L. stories, but here's one with a pleasant refrain and a beneficial reaction.

Court and attorneys' costs are getting so high as to discourage divorce. The condition is becoming a factor in keeping intact American homes.

Under the new schedule which probably will be adopted by Illinois lawyers, the minimum fee for smashing ties of the home is $135.

Alexander D. King, Jr., chairman of an Illinois Bar Association committee, suggested this charge in questionnaires sent out to members.

Added to the minimum would be the per diem attorney's charge and the court cost. Considering everything one is lucky to get out under $290 on a divorce proceeding.

# LANDSCAPE GARDEN WORK EXPLAINED AT GATHERING

**VERDUGO IMPROVEMENT CLUB HEARS ADDRESS; INTERIOR PLANS ALSO TOLD**

About forty residents and members of the Verdugo Woodlands Improvement Association met at the Old Adobe home of Mr. and Mrs. Robert Russell at Bonita drive and Opeeche way Wednesday night to hear J. L. Egaase, a Los Angeles landscape architect, talk on how their foothill section of this city can be beautified materially by the proper landscape gardening.

In addition to outlining a general plan for the residents there to follow, he gave advice to those having problems to meet in making their homes more artistic from the standpoint of gardening. He praised the natural beauty of Verdugo canyon and impressed his hearers with the thought that more residences of high class construction will add materially to the sightliness as well as value of their holdings.

**Women Are Interested**

Miss Edith Hynes, a consulting decorator, also from Los Angeles, was present and spoke on both the interior and exterior effects to be gained by the homemakers in expressing the artistic atmosphere of the Verdugo Woodlands in the painting, tinting and draping of their homes. Her advice proved most interesting to the women in attendance who asked her many questions relative to work they contemplated.

Attorney C. L. Chandler presided and among others present were F. P. Newport and W. L. Twining of the F. P. Newport Co., who have done much in developing this wonderful suburban tract. The great living room of the Old Adobe with its fireplace lending a cheering atmosphere is proving a most interesting center for residents and tourists alike, with the art exhibit hung there by Mrs. Russell's father.

## Five Vaudeville Acts And Pictures, Glendale

While "The Spenders" is the feature film on the program, five acts of amateur vaudeville, Mrs. Virginia Freeman, dramatic soprano, Madame Clement at the organ, and the usual picture fillers make one of the longest and strongest programs ever presented at the Glendale Theatre.

It is all at the first show tonight. Now regarding the feature:

Do you live in the east and think the west—west of Buffalo or at most west of the Mississippi—is the "jumping-off place of creation?"

Or do you live in the west and wonder how any one manages to exist east of the Rockies, let alone to enjoy health, prosperity and pursuit of happiness?

You'll find the most delightful, comical, quaint and humorous arguments ever heard or read on the relative merits of east and west in "The Spenders." "Uncle Harry Bines," the old western pioneer of the story, and his grandson, "P. Percival Bines," who is intent on spending the Bines' millions, wage a dispute that is one of the finest comedy angles of a comedy-drama classic.

Percival supports New York and its refinement. Uncle Peter is valiant in his defense of the west, and leaves it only to save the boy from a financial tangle in Wall Street. Then he retires triumphant with the scalps of a number of easterners (figuratively) swinging at his belt.

Clipping coupons from The Glendale Evening News is becoming quite a habit with Glendale Theatre patrons who get a free center section seat for six consecutively numbered.

## Chicken's Heart Kept Alive for Nine Years

PHILADELPHIA—On a little white marble slab covered by an airtight glass dome and kept at an unvarying temperature of 103 degrees Fahrenheit, a bit of flesh lies motionless.

It was placed there nine years ago after it had been taken warm and pulsing from an embryo chicken's breast. It used to beat regularly, as nature intended it should. Today it is dead, and yet it is alive.

Since early in 1912 a surgeon and two nurses have taken turns at watching the fragment. It is a heart.

Every forty-eight hours the surgeon, fitted with rubber gloves and equipped with sterilized instruments, lifts the glass covering and cuts the heart in twain. The new cells are either destroyed or put into fresh-growing culture for further experimentation. The old original heart—no longer formed like one, but a misshapen mass of tissue—is covered up again and the scientists resume their vigil.

If the heart had not been divided in half every second day since it was first placed on the slab, today, given proper surroundings for development, it would be a ball larger than the earth!

# FROM LAND OF BOLSHEVIK

Theodore Roosevelt said of Tom Skeyhill, "I would rather be on the platform with Tom Skeykill than any man I know." The story of this young Australian soldier-poet's war experiences and his subsequent lecture achievements on the American platform, are truly remarkable. His story of Gallipoli and the Dardanelles was one of the lecture classics of the past decade. Now he has just returned from a winter spent in Russia with an authoritative story of conditions as they exist in the land of Lenine and Trotzky. His is a fact lecture. He brings to you the story of Russia first-hand. He comes to the chautauqua in Glendale, May 11-17.

# NOTED GROUNDS ARE CHOSEN AS SCENE OF FESTIVITIES

CATHOLIC BAZAAR TO BE HELD SATURDAY AFTERNOON AND NIGHT AT LA RAMADA

The ladies of the Holy Catholic church are making elaborate plans for their old-time bazaar, which is scheduled to take place Saturday afternoon and evening at the popular La Ramada restaurant in north Glendale. The affair promises to be a real jollification from start to finish, some of the things planned by the ladies being a country store, confectionery stands and concessions of several kinds.

In the evening a dance will be held in the south wing of the famous resort, and it is expected that a banner crowd will enjoy the party. It was in this same old south porch of the beautiful casa, where, over a hundred years ago, many a carefree Don and his pretty Senorita danced to the soft music of the guitar in the mellow southern California moonlight.

**Many Enjoyed Hospitality**

Here countless friends of Mr. Verdugo enjoyed the hospitality of the generous Mexican land owner, whose acres reached from Verdugo Canyon on the north to the Los Angeles river on the south and from Los Feliz Rancho on the west to San Rafael Rancho on the east.

It is thus that the last weeks of Mrs. Weetman's lease on the restaurant are being filled by her many friends.

After four years' residence and kindly interest in the affairs of the community she will retire to private life about the first of July for a much-needed rest.

## Mrs. E. E. East Hostess Wednesday Bridge Club

The Wednesday Afternoon Bridge club was entertained this week Wednesday at the home of Mrs. E. E. East, 121 West Lexington Drive. The house was decorated with nasturtiums and yellow candles. This same color scheme was carried out in the ices, cakes and candles. High score for the afternoon was made by Mrs. Harry H. Powers, Jr. Special guests present were Mrs. W. F. Althouse, Mrs. Helen I. Campbell, Mrs. Heloise Bondaux, Mrs. Robert Pease of Los Angeles and Mrs. E. D. Elson of Los Angeles. Members present included Mrs. F. B. Morse, Mrs. Grace George, Mrs. Claude Putnam, Mrs. Harry H. Powers, Jr., Miss Elma Meiss, Mrs. Charles Carol, Mrs. F. J. Rogers and the hostess, Mrs. E. E. East.

A New York garage owner whose safe had been cracked twice improvised a shrapnel shell, consisting of a liberal charge of gunpowder and buckshot. He placed this in the cash box of the safe in such a manner that upon opening it the charge would detonate. Following a loud report the watchman found the charge exploded and blood on the floor. The burglar had escaped.

One of the greatest butter centers in the world is Cork, Ireland. One year's export of butter amounts to nearly 750,000 tons.

# SCENARIO WORK OF LANIER BARTLETT BRINGS HONORS

REACHES PEAK OF PROFESSION THEN ENTERS AUTO SALES FOR GLENDALE FIRM

"The Servant in the House," which is having its first presentation in the west at a Los Angeles theatre this week as the feature film, displays the genius of Lanier Bartlett of the firm of Bartlett & French dealers in Chandler and Cleveland motorcars here, as it was he who wrote the scenario from the book of the same name.

It is said by critics to be the nearest perfect picturized novel ever produced from the standpoint of continuity and for this Mr. Bartlett is greatly responsible. It was among the last pictures he worked on before deserting the film game for automobiles, although he has hopes of returning at some later date to movieland. Six years of constant strenuous effort in editing pictures was proving detrimental to his health, however, and he is having the "time of his life" displaying the good points of his favorite motorcars to prospective customers here.

**Play Will Come Here**

Mr. Bartlett's experience with both Fox and Selig production companies permitted him to reach the peak of his profession and among the notable films in which he had a part was the scenario for "The Spoilers." He also wrote many photoplays of his own which are known in the picture world as examples of excellent continuity, something which every director seeks in the films.

"The Servant in the House" will come here in dramatized form on the Chautauqua program within the next fortnight and it will be followed in film soon at the Glendale Theatre. Friends of Mr. Bartlett will take pleasure in noting his work by comparing the two productions.

## Jobs for Women, but Few for Men, Report

CHICAGO—Women, who entered the industrial field by the thousand during the war, are a big factor in the present unemployment situation.

This opinion was expressed today by Commander William Peart of the Chicago district of the Salvation Army.

Commander Peart said that while it is practically impossible to find jobs for the many men who apply to the Salvation Army, there is little difficulty in placing the women.

"Changed industrial conditions have brought about this situation," said the army commander. "Many of the women who entered the industrial field during the war have remained. Their employers not only are satisfied with retaining them, but are employing more."

Peart believed this is a factor which "must be reckoned with in future industrial depressions."

The Aztecs domesticated the wild turkey before the arrival of the earliest Spanish explorers.

The farmers who water stock never get the returns of the fellows who water the stock in Wall street.

## Black Peach Aphis Making Appearance

Farm Advisor Hodgson reports that in a number of peach districts the black peach aphis has shown up during the past week or ten days. This aphis is one of the most destructive insects attacking the peach, and is particularly difficult to control on account of the fact that it has two distinct forms, that appearing on the leaves and fruit in early spring, and an underground form which carries the insect over from season to season. Where this insect becomes prevalent in large numbers, injury is frequently very severe, sometimes the entire crop being destroyed.

For the control of the above-ground forms, dusting with five per cent nico dust is advised, or liquid spraying, using the following formula, 1½ pints blackleaf 40, 6 lbs. whale oil soap, water to make 200 gallons. Dusting with nico sulfur dust containing 5 per cent blackleaf 40 is a combination material advised to control both peach aphis and red spider, where the latter also exists. For control of the underground form, the best method yet known consists of use of carbon bi-sulfide. During April four or five holes 8 to 10 inches deep in a radius of from 18 inches to 2 feet from the trunk of the tree are made, into each of which is poured from 3 to 4 liquid ounces of the carbon bi-sulfide, followed by immediately covering the holes. It is important that the liquid does not come in contact with the roots however, as it is likely to kill them.

## Delegates Chosen For Annual Farm Meeting

President Robert H. Neely of the Los Angeles County Farm Bureau announces that the annual Farm Bureau Conference excursion will be held this year during the last week in May, 23-28 inclusive, leaving Berkeley at 8 o'clock Monday morning, the 23d, and ending at Bakersfield Saturday evening, the 28th. Los Angeles county will be represented on this trip by three delegates. The delegates as appointed by President Neely, together with the alternates selected are as follows:

W. S. Rosecrans of Gardena, Claude Stone of Pasadena, Ralph McNees of Whittier, Walter W. Wood of Whittier, Wm. R. Harriman of Downey, Mark Grimes of Van Nuys.

More than 100,000 volumes and thousands of pamphlets on the Great War have been collected by the French government. The collection of manuscripts, photographs and war records is appalling as to numbers and a building will be erected having five miles of shelving. Princeton university and the University of California, in this country, are especially strong on war material.

# EUROPE READY FOR BIG HARVEST OF TOURIST CROP

**VISITORS FROM U. S. GIVEN PROMISE OF COMFORTS IN FOREIGN LANDS**

LONDON—First signs of spring in England spurred the transportation companies and the tourist agencies into a fever of expectancy and all eyes are turned towards America, which Europe regards as the haunt of the millionaire.

Visitors from the United States are promised much in the way of accommodations, with conditions approximating those in prewar days prevailing. Hotels and pensions again will have plenty of rooms on comparatively short notice and passport ceremonies are shortened.

Incoming passengers are still closely supervised by British port authorities but the examination is much less exhaustive than last season. Then it was necessary for an American citizen to go to the trouble of getting a passport vised even when embarking for his native land. Such a procedure is no longer necessary.

Police restrictions in the British isles also are relaxed, registration being required only if a visitor intends to remain more than sixty days, and railway facilities are greatly improved in schedules and travel accommodations.

**Comfort Assured Visitors**

At this date no steps have been taken toward organized welcome for American tourists because it is believed they can be taken care of adequately by the regular institutions for this purpose. No detail will be overlooked, however, it is pointed out, to insure comfort for all who touch British shores this season.

Travelers to Ireland, it is said, will be taken care of as far as it is physically possible under the circumstances.

Tourist agencies are quite frank in admitting that only the well-to-do are financially able to bear the expense of travel at present when a first-class cabin ticket costs approximately $250 one way.

They say the tourist traffic last year was practically without the large numbers of school teachers and professional people who came to Europe formerly to spend the summer weeks in travel and study. These folks, they say, cannot pay the prices it is necessary to charge to make the tourist business pay, and there are no signs now that travel will be cheaper in the near future.

# Mrs. Ella W. Richardson At Community Singing

Mrs. Ella W. Richardson of 317 North Brand boulevard, and her house guest, Mrs. Mary O. Ryan, attended the community sing in Hollywood Tuesday night, which was led by Hugo Kerchoffer. Community sings were held at the Glendale High school up until about a year ago, and were under the same leadership and were greatly enjoyed by the people of this city.

Quite a novel campaign to raise funds to continue the sings at Hollywood for another year was inaugurated Tuesday night. The audience or singers were divided into two groups, "the canaries" and "the larks." Cards were passed and each group was given four minutes to see which could raise the most amount of money in that time. Over $900 was contributed that one evening.

Another interesting idea is carried out in Hollywood. Whenever anyone over 75 has a birthday they are presented with a little gift. Mrs. Richardson stated that Tuesday night a little lady 84 years old went to the platform and was presented with a beautiful bouquet of flowers.

# City Service Requests And Transfers On File

Requests of transfer of water and light service and new meter installations received at the public service department recently were: T. P. Eiffler, from 724½ East Windsor to 800 East Windsor; Miss C. Taylor, from 742 East Wilson to 332 West Colorado; N. A. Frazer, from 1428 South Glendale to 638 North Maryland. J. E. Aycock, 104 North Belmont; S. Robinson, 111 North Glendale; Mrs. C. Toot, 543 Myrtle; A. C. Pert, 414 Ivy; F. McEwen, 1280 1-2 South Mariposa; W. E. Hunter, Buell and Bemis; Harry Hague, 329 Magnolia; S. R. Waters, 921 East Colorado; I. Cline, 126 North Orange.

As a result of many years of study, a machine has been developed in Lyon, France, to make raised embroidery in gold and silver. The stitch is a copy of an ancient form of embroidery and gives an impression of handwork. The machine uses the metallic thread.

A prisoner in St. Paul, Minnesota, paid in full five victims of his forgery. Earning but twenty-five cents daily in the prison twine plant he managed to save the $43 which he paid to ease his conscience.

# U. S. SEEKS SERVICE OF BUILDER BIG ITALIAN PLANE

**SIGNOR USUELLI, DESIGNER OF HUGE CRAFT, TELLS ABOUT HIS FUTURE PROJECTS**

ROME—The United States has asked the Italian government to lend America the services of an engineer skilled in the construction of semi-rigid dirigible airships and several other men to aid in the building in the United States of craft like the Roma, the big dirigible purchased from Italy. The Italian government has granted the request and the Italian engineer, Celestine Usuelli, designer of the Roma, will supply plans and instructions for the proposed American craft.

It is understood that the Americans have intimated that they would be glad to have the services of Signor Nobili, the builder of the Roma, and also her Italian crew to aid in airship building. It is stated that the American airships of the same kind as the Roma are to be five meters shorter than the Italian vessel bought by America, so that they can be sheltered in the American hangars.

**Larger Dirigibles Planned**

Signor Usuelli is planning larger dirigibles for Italy. "I intend to start immediately the construction of another dirigible measuring 46,000 cubic meters, the largest that can enter the present Italian hangars," he said. "This new ship will replace the Roma, but will be able to fly without alighting almost twice as long.

"My next great construction will be a super-giant, semi-rigid dirigible for the construction of which I must await the arrival from Germany of three colossal hangars assigned to Italy. I shall then build an airship 220 meters in length, 34 in height, and 120,000 cubic meters in volume. It will be equipped with twenty-four motors of 250 horsepower each, of which only one-third will be in use at a time. The other two-thirds will be kept in reserve so that each motor will work only six or seven hours, and will have from ten to twelve hours for rest and cleaning.

**Could Make World Tour**

"This dirigible will be able to fly for ten days consecutively and therefore could make the tour of the world, alighting only once. It will carry 100 passengers besides a crew of twenty-five and ten servants, and will cost 10,000,000 lire.

"My chief desire is," said Engineer Usuelli, "to demonstrate that a dirigible can fly in any weather and stand any storm, alighting without need of a hangar.

"I also wish to demonstrate that the dirigible is a good business proposition."

During the past year the Chicago, Milwaukee & St. Paul railroad handled nearly sixteen million passengers, not one of whom was killed.

# Mr. and Mrs. Roy Hays Here From Philippine

Mr. and Mrs. Roy Hay, who went to the Philippine Islands seven years ago as missionaries for the Seventh-day Adventist church, returned to the United States last week on furlough and now are guests at the home of Mrs. Hay's parents, Mr. and Mrs. William Dransfield of La Crescenta. Their four children accompanied them on the long ocean journey and B. M. Emerson, secretary of the Pacific Union Conference with headquarters here, met them as they landed at San Francisco.

The Dransfields were former residents of South Glendale (Tropico) where they conducted a grocery store for several years. They have retired to a foothill home in the La Crescenta valley. Mr. Hay will leave this week end for Colorado where he will visit with relatives and he will be joined there later by Mrs. Hay and the children.

# Peace Resolution Is Encountering Delays

WASHINGTON, May 6.—The Knox peace resolution has encountered delay in the house.

Today Chairman Porter and other members of the foreign affairs committee said it was uncertain when the peace resolution will be considered. Republican Leader Mondell also said it was uncertain.

Asked about the delay in the house, Porter said:

"This matter is so important and so closely connected with the situation in Europe that we in the house do not propose to rush the resolution through. The senate considered it three weeks and I fail to see why the house should pass such an important measure in a few days."

The striking uniformity of size among the Japanese is illustrated by the fact that measurements taken of the soldiers of a Japanese infantry regiment showed no variations exceeding two inches in height and twenty pounds in weight.

The wisdom that comes of money is like the reflection of the mirror that depends upon its backing of silver.

Penguins swim with their wings, using their feet as rudders.

# VARIED VOLUMES TO BE RELEASED AT LOCAL LIBRARY

**WORD-BUILDING BOOK, PLAIN TALES FROM HILLS AND ESSAYS AMONG LIST**

After the book review at the library yesterday afternoon the following list of books were released for circulation:

"Word-Building," by Kellogg and Reed. Fifty words, combining Latin, Greek and Anglo-Saxon roots, prefixes and suffixes into 5500 common derivative words in English.

"Buddhist India," by T. W. Rhys Davis. Description of ancient India during the period of Buddhist ascendancy.

"Plain Tales From the Hills, a volume of short stories by Rudyard Kipling.

**Eight Vigorous Essays**

"Old and New," eight essays which are marked by vigor and incisiveness.

"Study of Gawain and the Green Knight," by Geo. Lyman Kittredge. A critical study of a distinguished English romance. The volume is divided into two parts, the first dealing with the history of the story, and the second illustrating certain topics in folk lore and mediaeval literature.

"Mythical Bards and the Life of William Wallace," by William Henry Schofield.

# BLUEJACKETS ON VISIT TO PERU

Peru, with its desert coast and picturesque characters who tell weird tales of Indians dying under the Spanish yoke and coming back to haunt the land, is perhaps the most interesting of all South American countries. Tales of Inca's Idols, Spanish galleons or lost and forgotten cities make the traveler feel the warmth of romance in the air and impress him with the preposterous tales of the native.

Recently, as guests of Peru, the bluejackets from the ships of the Atlantic fleet had the opportunity of visiting that country under very favorable conditions. Great celebrations were held in honor of the majestic ships and their human cargoes swinging lazily in Callao Bay, the view from which extends over a vast expanse of fertile plain bounded by the Andes, with the towers of Lima in a setting of verdure in the distance.

Practically every variety of vegetation abounds throughout the Republic. Fruits in great quantities grow everywhere and the finest wines in the world are made in the famous vineyards of Pisco. In the Valley of Tambo there are extensive plantations and the vale of Canete is one immense sheet of sugar cane. Trips inland were arranged for the men so they might have an opportunity of seeing the land close at hand and they appreciated greatly the hospitality shown them by the Peruvians.

## Knights Of Pythias Membership Grows

Chancellor Commander Emil E. Framm presided as usual at the regular meeting of Knights of Pythias this week, it being "Van Nuys Night."

A large delegation of officers and members for Van Nuys was present. Other visitors were on hand, including Sir Knight Schuck of Triumph lodge of Urbana, Ills., who made an eloquent and appealing address.

The beautiful lesson of the Page Rank was exemplified, after which all present repaired to the banquet room where a delightful lunch was served. Walter J. Hibbert presided as toastmaster. All were pleased to learn that a large class of young men will be elected to receive the Pythian Ranks during the next few weeks which demonstrates the fact that this order is an ideal one for young men. Reports from all over the United States show large increases in membership in all lodges of the order.

The Esquire Rank will be conferred at the next meeting.

The annual Memorial services will be held at Forest Lawn Memorial park on Sunday, June 5. Prominent speakers will address the membership and friends.

An ounce of 22 carat gold is worth 50 per cent more than an ounce of 14 carat gold.

# U. S. BACHELORS ARE PROVING LURE TO FOREIGN GIRLS

**FIVE MILLION UNMARRIED IN THIS COUNTRY CAUSE OF BIG IMMIGRATION**

California girls are going to meet with more competition in the marriage market than formerly with the growing increase in immigration of matrimonially inclined women from Europe, according to students of the subject of immigration, its causes and effects. The fact that there are nearly 5,000,000 bachelors in the United States is causing an enormous demand for passports from women of marriageable age in Europe, many of them war widows, it was revealed at the federal building today.

But the European women had better make haste, or they will find matrimonial conditions in this country not much better than those of their native lands, if the decrease in available males continues during the next ten years at the same rate it has held for the last decade.

**60 Per Cent Decrease Shown**

For against the four and three-quarter million eligible bachelors in the United States today ten years ago there were 11,360,280, showing a decrease of approximately 60 per cent in the last decade.

The war is blamed to a large extent for the change, the overseas marriages bringing down the number of bachelors as well as heavy casualty lists. Ten years ago California alone had more than twice as many unmarried men as women, 434,949 white men against 215,471 white women, but the male majority is gradually lessening, so that California girls have been heard to declare war without mercy upon the incoming European women who would find themselves husbands from the local supply.

**Many Under 30 Years**

Women are coming from France where the excess of women is regarded as a menace to the country; from Germany, where the increase of unmarried mothers is regarded as a natural result of the war, and from Russia and Austria, where conditions are the same, it is said.

Many are under 30 years of age and unmarried, the main factor drawing them to the United States being the fact they are "surplus" owing to the war, while a large number, of course, are already wives of immigrants.

There are about a quarter of a million Jews in the United Kingdom.

## Country and City Life Contrasted In Picture

In the prologue of his mammoth motion picture version of "Way Down East," to be seen at the Glendale Theatre Sunday and Monday, May 8 and 9, D. W. Griffith takes his audience from the quietude and simplicity of countryside to the whirl and luxury of metropolitan. The big ball room and other city life scenes require much in elaborateness of detail, particularly the gowning of the feminine characters.

The vast array of unusual creations in these scenes are from the establishment of Lady Duff Gordon ("Lucile") and the furs shown here and later in other scenes are from Otto Kahn, Inc.

However, the gowns worn by Miss Lillian Gish in the prologue are of separate and distinct execution and their designing is the exclusive work of O'Kane Cromwell, while the execution of these garments was solely entrusted to Bendel and to Madame Lisette.

This proves to have been a happy thought, for in the play Miss Gish is seen as the simple child of the country, thrown suddenly into the lavishness of city life and it is quite fitting that her frocks be in contrast with those of the others.

Some men pay their lodge dues rather than be suspended, but they do not worry about keeping in good standing in the church.

## Food Sale To Help Church Building Fund

The ladies of the Central Christian church have announced that they will conduct a home cooked food sale Saturday at the hardware store of Neale & Gregg, 107 North Brand boulevard. The cause is a worthy one and all those who have a craving for their favorite delicacies "like mother used to make" will be doing themselves, as well as the ladies, a good turn by patronizing them.

The remuneration that will be realized from the sale will go toward the church building fund, which is growing steadily. The congregation plans to erect a new house of worship in the near future.

## New Jersey, Arkansas People Will Picnic

Two more great state picnics are announced and all former residents now in southern California are invited.

Both New Jersey and Arkansas will hold reunions in Sycamore Grove park, Los Angeles, all day, Saturday, May 7, with basket dinners at noon. Each state will have the county registers, badges, coffee and program. Bring your basket dinners with cup and spoon and hot coffee will be supplied for all.

**Exterminate the Gopher with Gopher Scent**

**STEFANSSON IS COMING**

Vilhjalmur Stefansson, noted explorer from the frozen north, will lecture here on the second night of Chautauqua. No more interesting story is being told on the American platform today than this one by Stefansson. For five years he was lost to the world in his exploration work in the Arctic regions. His party carried supplies for one year only, the other four years they "lived off the land." This lecture has been packing the great auditoriums throughout our largest cities. It is illustrated with splendid views taken in the north by the Stefansson party.

**Seven Days Packed With Big Attractions**

Make Chautauqua week your vacation week. You will never regret it. It will be seven days filled with interesting and inspiring lectures, splendid music and wholesome entertainment for you—a week you will long remember. Other prominent lecturers are Peter Clark Macfarlane, Father D. J. Cronin, Hunt Cook, Tom Skeyhill and Burnell Ford. Ten concerts during the week by Lieurance's Little Symphony Orchestra, Roach-Freeman Duo, Walter Jenkins, The Orpheus Four and The Jugo-Slav Orchestra. On the fifth night a big New York play production.

**Season Tickets Now on Sale**

ADULTS, $2.72; Students, $1.50; Child's, $1.00; No War Tax.

# NEW STREET NAMES FOR GRAND VIEW ARE PROPOSED

PUBLIC MEETING TO BE HELD AT WHICH SUGGESTIONS WILL BE DEBATED

Public hearing will be held on or before June 9 for the purpose of considering changes in names of streets in the Grand View district.

This was decided upon at the meeting of the board of city trustees last night, on motion of Trustee Bartlett, following a communication from T. W. Watson, city manager.

The communication pointed out that there is a Vine street in one section of Glendale and a Vine avenue in the Grand View district. The communication follows:

"In regard to petition filed by property holders of the Grand View district requesting that the name of Sixth street in that district be changed to Glenwood road, the city engineer reports that the petition represents 79 1-3 per cent of frontage on Sixth street in the Grand View district.

**Too Many Vines**

"In this connection we would respectfully call the board's attention to the probability of similar petitions being filed in the near future requesting other changes in street names in that district; also consideration should be given to the fact that we have Vine avenue in that district and Vine Street in another section of the city.

"In consideration of the above it might be well to hold a public hearing on June 16 at which time discussion and consideration of all petitions or suggestions as to street naming in Grand View district that are presented to your board on or before the 9th of June may be had, and after a thorough discussion of the matter of street names for that district at such hearing your board might then embody the wishes of the people of the district and your conclusions in regard thereto in one ordinance fixing the names of the streets in accordance therewith."

Peacocks were regarded by the ancient Romans as the choicest of table delicacies.

More potatoes are produced every year than any other food crop.

Mushrooms are a world-wide product and as plentiful in Siberia as in the tropics.

## Dear Katie's Friend Wanders To Noted Old Spanish Grounds, Eats Of Spanish Food, Goes To Sleep On Bench; Dreams Spanish

Dear Katie:—Well, today I started out to write my first artikle for The Glendale Evening News.

I had noticed a few days ago that somebody had bought La Ramada and the original Casa Verdugo grounds covering an entire block, so I says to myself, that's grounds enough to write a article about. So I did.

Well, I found the place by accident and stayed there on purpose for the rest of the day. And I was surprised.

I had made up my mind that this Ramada might be a brewery (now obsolete), and that Casa Verdugo in Spanish meant a case of grape juice in English. But that wasn't the case, Katie.

Instead it was a nice park with some houses on it, builded of Spanish arkitecture. Now Katie, I think you got enough romance in you so as to let your imagination take you back to sunny Spanish climates. As for me, as soon as I saw this antique park, I begun to wish that I had studied botany instead of pool and all I know about Spain is that they blew up the Maine and that they have been blue ever since.

This park is only a stone's throw from the foothills (if you can throw far enough), and it is a sight that would give a starvin' poet plenty of food—for thought. Well, I roamed, careless like, onto the place and I didn't see nobody and it seemed awful quiet and mystic like.

**Meets Up with Some Trees**

There was a lot of trees of which I couldn't speak their names off hand and there was big century plants with a 99-year lease that would have been a public nuisance, if there was any public there. There was giant cactus bushes that looked like a sprouting revolution in Mexico. There were palms and roses and pampas grass and flowers of every specie.

There was a lot of fountains that had gone prohibition and rustic chairs and rusty lamp posts that had old Spanish lanterns hanging on 'em and a lot of cute arbors made of trees and palm leaves and vines.

The people that just bought this park, Katie, are goin' to make a amusement place out of it.

Well, at last I come to an old house which is called a dobe. There was a sign said, Spanish dinners given on the inside.

Howsoever I wanted some facts for my artikle more as I did somethin' to eat, but I saw a chance to get both, so I went in.

The early bird catches the plot and that's me, Katie.

Well, I went into the dining room and sat down at a little table and picked up the dinner program.

Katie, that program was as funny as the Chinese alphabet. All I could read was the price mark which said $2 and that's all I pay for board by the week.

But I decided to see it through, 'cause my motto is: "When in Rome do as an American would do."

**Stows Some Stanzas Away**

I copied off a couple stanzas from the program which was "Enchiladas a la Ramade" and "Lista de los Platos" and "a la carte" and "table to boot."

Well, I didn't want to show my ignorance, so when the lady came for my order, I just pointed to each one of them items and said to bring me some of all of 'em and a glass of milk. She smiled at me kinda pleasing and went out.

Then I had a chance to look at the interior from the inside. It was awful romantic, Katie. Little red lights were hangin' around that gave a soothin' glow to the atmosphere and there was old rugs and curtains and the walls were about two feet thick.

Then I just let my imagination run wild and I seemed to see beautiful Spanish senoritas and big Spanish men and Indians playin' dominoes like maybe they did in olden times and if those thick walls could talk, I bet they could spill some romantical tales, ain't so, Katie?

Well, then the lady came with the artikles of food aforesaid mentioned.

Then I asked her what did Casa Verdugo mean in English, and she said it meant the "home of the hangman." I'll be hanged if I could make any sense out of that, but it gave me a quiver, anyway.

Then she tole me that La Ramada means "the arbor" and it was builded 350 years after Columbus discovered New Jersey. Well, I took her word for it, cause I couldn't prove otherwise.

Well, she went away and I begun to eat my lunch, but I didn't eat much afore I made up my mind that the cook had had an accident and had upset the red pepper box into those artikles of food. Hot! Say, Katie, the chief cook in Hades wouldn't have spices like those was, in his pantry. But I suppose you got to have a Spanish education to eat food like that and what I don't know about Spanish would fill eight volumes bound in genuine leather.

Well, I had eat about 5c worth which was too much in itself and I paid my bill and took the air.

I walked around the windin' paths and all to once I come to a artistic little arbor and there was a bench in it and I was tired and feelin' like I had cute indigestion from what I hat ate, I laid down on the bench to have a siesta, which is a nap in France.

**Dream Follows Luncheon**

Then Katie, I had a beautiful dream. I dreamed that I woke up and it was evenin'. I could hear the sparklin' laughter of pretty ladies, the tinkle of tinware and glasses, the gurgle of running water and the soothin' music of a mandolin and a cataarh. The moon was shinin' and a lot of colored lights was hidden aimless like, in the trees. I got up and walked around like I was in a fairy land. The grass had been massaged and the flowers and trees had been manicured or words to that effect. Pretty fountains splashed in the moonshine and gaily-dressed couples strolled across the lawn.

Then throu the trees I saw a big dance pavilion and hundreds of people dancin' pro and con in the moonlight and I could hear Fandango music like you used to play on the organ, Katie. I was like in a maze and I turned my fevered brow to the coolness of the mountain brezes. It felt kinda soothin' like a cough drop.

I went to the other side of the park and there I saw a big hotel all lit up and in the dining room a big dinner was being had and I saw a lot of movie stars and they all seemed to have a hot tamale in one hand and a Case of Grape Juice in the other.

I looked over to where the house of the hangman used to be. Katie, it was still there and out the door come the hangman himself and he was comin' strait after me. The fourteen points couldn't hold me there, Katie. I turned and run so fast that you could of played solitary on my coat tails. The hangman was close behind and just as he grabbed me, I run plump into a cactus bush and then—I woke up.

Then I smiled at myself. Maybe, after all, it was but a predict of what will come true someday. What has been and what is to be. But, Katie, do you reckon I was born to be hung? I ask you.

But for the present anyway, Katie, I don't want to eat no more aforesaid Spanish meals, for it is of such stuff of which dreams are made. And yet someday the Case of Verdugo of my dreams might come true. Quien Sabe, whatever that is.

Dreamily yours,
E. C. HALE.

Glen's Dale, May 6, 1921.

# ACTION IS FAVORED FOR W. BROADWAY IMPROVEMENT

APPLICATION FOR OIL PLANT ON CORNER IS CAUSE OF RENEWAL OF PROJECT

(Continued from Page 1)

Offutt to build and operate a gasoline filling station on lot 6, block 8, of Glendale Valley View tract, such lot being located at the southwest corner of Broadway and Central avenue; also his application for permission to remove three trees from the parkway in front thereof which was referred to us Thursday evening, April 28, we respectfully report as follows:

"We understand that a movement is again under consideration looking toward the extension of Broadway directly across Central avenue at right angles and extending from the west line of Central avenue diagonally across this and several other lots south and west thereof to an intersection with the south line of Broadway about 200 feet west of Central avenue in accordance with plot submitted herewith. Citizens and property holders of West Broadway have called this matter to the attention of the Chamber of Commerce.

C. of C. Committee Report

"In this connection we have received a copy of the report of the Chamber of Commerce committee on railroads, highways and public utilities as follows:

"'Glendale, Cal., April 27, 1921.

"'Mr. Jas. M. Rhoades, Secretary, Glendale Chamber of Commerce:

"'Dear Sir: This committee considers the improvement of the continuation of Broadway through Central avenue most desirable and necessary. It is the belief of the committee that the improvement should be made at the earliest date possible and that the change would be less expensive now than at any time in the future. It is recommended, therefore, that the city manager be requested to make the preliminary surveys and arrive at the estimated cost of the said improvements.

"'It is the opinion of this committee that, in order to obtain the support of the property owners immediately affected, the assessment district cover a large area.

"'We believe that the desirability and necessity of such an improvement is understood by the majority of the citizens of Glendale.

"'Yours very truly,

"'ROBERT C. PLUME, Secy.,

"'Committee on Railroads and Public Utilities.'

"We therefore recommend that no action be taken on Mr. Offutt's applications pending the consideration of this matter by the Chamber of Commerce committee. We also submit the plot attached indicating the lines upon which we would recommend that the proposed extension be made.

"We also recommend that the matter of reserving for park purposes the small three-cornered plot of ground that would occupy the space between the proposed extension of Broadway, Central avenue and the present extension of Broadway west of Central be referred to the Chamber of Commerce and to interested property holders in that vicinity."

## Methodist Church Is Given Cesspool Permit

The board of city trustees last night granted the First Methodist church permission to construct a cesspool, on the following communication from T. W. Watson, city manager:

"The trustees of the First Methodist church have requested permission to construct a cesspool in the parking on Wilson avenue to take care of drainage from sink and steam table in connection with kitchen in basement of church building at that location. The buildings cover the entire lot and there does not seem to be any other available location for this cesspool.

"I would respectfully recommend that permission be granted in accordance with their application."

## Refused Permission For Vending Machine

Permission was refused L. Bender to operate a vending machine on the streets of the city by the board of city trustees last night on the following communication from T. W. Watson, city manager:

"In regard to application of L. Bender of 5037 Baltimore street, Los Angeles, to operate a Peerless portable popcorn vending machine on the streets of the city of Glendale referred to us Thursday evening, April 28, we understand that Mr. Bender will be present this evening and desires to discuss this matter with your board. If the board desires my recommendation, however, in the matter I would respectfully recommend that the permit be denied."

Mr. Bender was not present at the meeting last night when the communication was read.

Owing to the shortage of coal and the manner in which the government regulates the distribution of fuel in Berlin, the hot bath has become such a luxury that many persons have ceased bathing.

# CHARGE TO COLLECT GARBAGE SAID TO BE NECESSARY

CITY MANAGER GIVES NUMBER OF REASONS WHY ACTION IS NOW REQUIRED

(Continued from Page One)

ceived from sale of garbage, leaving $966.25 as the net cost of this service. As matters now stand there will not be sufficient funds available to carry on this service during the first half of the coming fiscal year by reason of the fact that revenues from taxes will not be available to any extent until about the first of December.

Proposes Charge Be Made

"Service of this kind cannot be dispensed with; the health and welfare of people require it. As the city becomes more densely populated the possibility of taking care of the city's waste on private premises is greatly decreased. As a means of providing funds to carry on this service in such a way as to fully meet the demand therefor, we would respectfully recommend that a charge be made to those receiving such service. This charge need not be large and should only be for the first six months of the coming fiscal year, from July 1 to January 1. Some practical plan should be devised if possible to eliminate the larger portion of the overhead cost in connection with the bookkeeping and collection of this charge. To that end we suggest the following plan:

**"That the city issue tickets entitling the holders thereof to this service, these tickets to be paid for in advance and each ticket representing a separate unit of service. When one of these tickets is attached to a receptacle containing garbage or waste matter to be removed, the collectors would gather the same upon regular days established therefor. These tickets could be supplied by the city in coupon books at $1.75 each, each book having twenty-five tickets. These tickets should be large and provisions should be made whereby they may be readily attached to the receptacle containing the garbage or waste matter to be removed. By this means practically all bookkeeping and collection costs would be avoided.**

"We would also recommend that a flat charge of 50 cents a month be made in the business district to each business establishment requiring the removal of papers and that 25 cents be charged for the same service for offices in the business section. The revenues from these sources may not cover the entire cost of this service, but will assist greatly in meeting this outlay until funds are available from general tax levy.

"We regret exceedingly having to recommend to your board that a charge be made for this service, but we are confident that the people of Glendale appreciate fully the fact that this rapid growth and increase in population has brought added responsibilities and calls for service upon their municipality that must be met many months in advance of the time when funds from taxation will be available to pay the cost thereof and that an emergency measure of this kind costing each individual a comparatively small sum will be met cheerfully and that they will be glad to place the city in position to fully take care of this important matter and to pay the costs thereof promptly each month."

## Elks To Learn All About City's Beauties

Elks from all over the United States will read of the attractions of Glendale, as the result of action taken by the board of city trustees last night. The board decided, on motion of Trustee A. H. Lapham, to help pay for advertising matter in a magazine issued to members of the fraternal order, on the following communication from T. W. Watson, city manager:

"We have received a request from James M. Rhoades, secretary Glendale Chamber of Commerce, for an appropriation of $25 which will be a part of a $200 subscription by the cittizens and business men of Glendale to pay the cost of three pages or more of advertising matter and write-ups on Glendale that will appear in the 'Pacific Coast Elk,' a magazine of general circulation, a large illustrated edition of which will be distributed among the 1400 lodges of Elks in the United States prior to the departure of the delegates for the great convention of Elks in Los Angeles in July. A copy of Mr. Rhoades' letter is attached hereto.

"It would seem that the small amount asked for is well worth while in the consideration of the amount of advertising that will be obtained thereby."

To supply the demand for "mateadors" in Spanish bullfights, a school has been opened in Madrid by an expert. The pupils fight a dummy bull on wheels and operated by the instructor, and they must learn to avoid being "gored" by the rubber horns. But graduates must take real live animals before receiving their diplomas.

There is talk about the reformed dance, but the deformed dance seems to meet the demand of the time.

# GOODRICH Price Readjustment

## Endorsed by Users and Dealers throughout the country

The decisive reduction of 20 per cent in the prices of Goodrich Silvertown Cords, Goodrich Fabrics and Goodrich Inner Tubes which took effect Monday, May 2, received the endorsement of both tire users and dealers.

It was accepted at its full face value as a helpful economic move in tune with the times.

It conforms to present conditions and carries out in a straightforward way constructive merchandising methods.

Goodrich Tires have earned their reputation and standing with motorists by sheer quality of construction and complete dependability of service.

Quality in a tire rests not only upon the materials of which it is made, but also upon the experience and skill of its makers.

Every advance in construction and improvement in making, with many exclusive betterments is in the Goodrich Tires you buy today.

Your Goodrich dealer is ready to supply your needs.

## 'Polly With Past' Is Palace Grand Feature

Ina Claire, the Belasco stage star, will be seen in pictures tomorrow at the Palace Grand theatre in "Polly with a Past," adapted by June Mathis from the theatrical success by George Middleton and Guy Bolton.

A comedy, cartoon and adventure picture will round out the bill. "King Dodo" is the overture announced as the orchestra's feature.

## Bellhurst Tract No. 2 To Open Next Monday

Considerable interest is being shown in the announcement by the Glendale Realty company that it will open Bellhurst tract No. 2 next Monday. The company states that lots have been staked off and the street work, it is announced, will be started at once. The Glendale Realty company expects there will be a brisk demand for the lots, beginning next Monday.

## Funeral Services For R. K. Taylor Are Held

Funeral services for Robert K. Taylor, aged fifty-three years, who passed away as the result of having contracted pneumonia, were held yesterday afternoon from the Little Church of the Flowers, interment at Forest Lawn cemetery. Mr. Taylor had been a member of the B. P. O. E. of Grand Rapids and the funeral services were in charge of the Glendale lodge of Elks.

Mr. and Mrs. Taylor and two children arrived in California from Grand Rapids only five days prior to his death, having come here with the expectation of recovering his health. Mrs. Taylor and children are stopping at the home of Mr. and Mrs. W. H. Buriff, 201 North Kenwood street. Mrs. Taylor and Mrs. Buriff were girlhood friends. Pulliam & Kiefer Undertaking company is in charge.

Any person who pays any taxes at all is morally certain they are excessive.

Girl jockeys are appearing on the New Zealand race tracks.

# COLLEGE BODY ASKS GLENDALE PROBE GIRL'S DEATH

CIVIL AND CRIMINAL CASES AGAINST PACIFIC ELECTRIC MAY BE RESULT

(Continued from Page One)

Los Angeles and Pasadena papers for publication and that furthermore, representatives of the Associated Students of Occidental college present these resolutions to the city authorities in person at their next regular meeting.

"JAMES C. SHEPPARD, JR.,
"President Associated Students of Occidental College."

**Letter From M. B. Jones**

Mattison B. Jones, of the law firm of Jones, Wilson & Stephenson, acting for the relatives of Miss Lindsey in the civil action that may be taken against the Pacific Electric, sends the following letter to the editor of The Evening News:

"Editor The Evening News: As a protection to my fellow citizens of Glendale and to the people who travel through our city I deem it my duty to say through your columns to your many readers that the testimony at the coroner's inquest held yesterday upon the death of Eugenia Lindsey was absolutely conclusive of the utter recklessness and brutal disregard by the motorman in charge of the three-car train of human life.

"It is a well known fact to all those who are at all acquainted with the intersection of Brand boulevard and Los Feliz road, where the accident occurred, that there is no obstruction of any kind to prevent a motorman on a Los Angeles bound car at a distance hundreds of yards from said intersection from seeing an automobile anywhere in that intersection. In the face of this fact the motorman testified yesterday that at the instant he first saw the Lindsey automobile the front of his train was only thirty feet from the point of collision with the automobile, and that at the same instant that he saw the automobile it was twenty-five feet from the point of the collision.

**Violates Law, Claim**

"When asked by myself why he did not prior to this time see the automobile in that intersection, he replied that he was looking to the left. He also testified that he knew the speed of the train at that intersection was limited to twenty miles an hour by the ordinance of the city of Glendale. Thus he was driving this three-car train loaded with people at a speed of from forty to fifty miles an hour knowing he was approaching an intersection that carries heavy traffic, and did not deem it his business in the protection of human life to see the automobile that was crossing his track until he was within thirty feet of the impending collision. Furthermore, the testimony without conflict shows that there were four to six people standing at the regular station by the southbound track to take this or any other car that would stop, for Los Angeles.

Here follows the verdict of the coroner's jury:

"'Fracture of skull caused by a collision with Pacific Electric train, Burbank limited, which was traveling at excessive speed and beyond control at the time of the accident. No warning signal given by motorman in time to avoid accident. No danger signal located at crossing to safeguard the public.'

"MATTISON B. JONES."

There do not seem to be any fixed rules as to how much scandal is necessary to qualify for the movies.

Women may now study for any career in the universities of Spain.

## Special Trains Will Bring C. E. Visitors

By GLEN and DALE

There will be at least two special trains coming to Glendale June 25. One on the valley line of the Southern Pacific and one on the Salt Lake, bringing delegates from San Bernardino, Riverside and way points. Doesn't it seem strange to think of real passenger trains on the Glendale-Salt Lake tracks?

The reception committee for the convention has planned to have groups of Glendale and Burbank people board these trains fifteen or twenty miles from here, greet the visitors, give information and show that Glen and Dale really are glad they are coming. Other groups of this committee will remain on duty in Glendale. Reception committeemen and girls will wear the sombrero, which has been used in all advertisements that they may be easily known.

Carol Duncan is chairman, Doris Ingledue is vice-chairman and H. S. Wilcox secretary of this committee.

# PRESIDENT HARDING FOR OBSERVANCE HOSPITAL DAY

EXTENDS GOOD WISHES BEHALF OF PLAN FOR NATIONAL EVENT ON MAY 12

The Glendale Research Hospital in addition to its elaborate program of opening exercises next Sunday, will also observe "Hospital day," May 12, on which day the hospital will be open to visitors in the afternoon. In recognition of the now admitted fact that hospitals are necessary public service institutions, and should be encouraged and supported by all good citizens, and to impress this fact on the public mind, President Harding has issued the following endorsement of the day:

"The White House, Washington,
"March 29, 1921.

"My Dear Mr. Foley:—It is especially a pleasure at this time to express my interest in the work of the National Hospital Day, which seeks to arouse the largest possible public interest in the work of the country's hospitals and similar institutions. You have most properly chosen May 12, the anniversary of the birth of Florence Nightingale, as the day to be celebrated as National Hospital Day. Just at this time those of us who are concerned in the administration of National affairs are having our attention forced to the very great need of expanded hospital facilities, by reason of the requirements of disabled soldiers. I can most heartily extend my good wishes for the most useful results from your efforts.

"Very truly yours,
"WARREN G. HARDING.

"Matthew O. Foley,
"Executive Secretary,
"National Hospital Day Committee,
"537 South Dearborn Street,
"Chicago, Ill."

Anent this observance, a timely suggestion is contained in a letter received from Prescott H. Vose, president of the Eastern Maine General Hospital, Bangor. "The observance of National Hospital Day," he writes, "is certain to focus in a very effective way the attention of the public on hospital accomplishments and needs.

"May I make a suggestion? Appeals for hospital support are always made from the humanitarian standpoint exclusively. There is another view that ought to appeal. The basis of the strength and progress of any community is in the health of the people. Hospital work pays in dollars by returning to the ranks of the workers—the producers of wealth—thousands who, without the care and treatment received, would die or become permanent burdens to their friends or to the community."

Those who may be interested in the execution of a plan of social service work in the new Research Hospital are especially invited to be present on the afternoon of Hospital Day, but all choosing to visit the hospital will be gladly welcomed.

## Dr. F. M. Collier To Operate Free Clinic

Something new to Glendale is the free clinic established by Dr. F. M. Collier at his office, 125½ North Brand. Dr. Collier announces he has closed his office in Los Angeles and will be in his Glendale office from 9 to 12 and from 1 to 4. His practice is limited to eye, ear, nose and throat. He also measures eyes for glasses.

Dr. Collier states that for those unable to pay he will receive in his office from 12 to 1 o'clock three days a week. On Monday he will give eye treatments, on Wednesday he will treat for ear trouble and on Friday he will treat nose and throat. The free clinic will be conducted only on the days and between the hours stated.

The woman who believes she has been "stung" in the man she married, has the consolation of knowing that most other women think the same thing about themselves.

# CITY REQUIRES NEW FIRE ENGINE, IS WARNING GIVEN

ONE MORE ATTEMPT WILL BE MADE TO REPAIR THAT IN USE NOW, IS DECISION

(Continued from Page One)

it in service in the condition that it is in.

"Since the receipt of Mr. Lankford's letter the apparatus has been out of commission twice on account of repairs and is now out of commission again. The other two apparatus are in splendid condition and are dependable in every way, but in case of a large fire a third one would be badly needed.

**Cites Santa Barbara Fire**

"I feel that all who carry responsibility in this matter would be greatly disappointed to say the least if occasion would arise whereby the city would suffer a great loss of property on account of this apparatus not being in condition to respond to fire call or by reason of its breaking down on the way to a call as was the case at Santa Barbara during the fire that destroyed the Ambassador hotel a few weeks ago. Two fire trucks dashing for the scene broke down and one truck turned over allowing the fire to get entirely beyond control. Of course, we do not want anything like that to happen in Glendale.

"This apparatus was purchased by bond issue. A large portion of these bonds are still outstanding. For that reason and as a matter of general policy I believe it would be well to replace this apparatus with a new one purchased under a form of lease whereby the city would make monthly payments as rental and when the terms of the lease were complied with the city would acquire title to the property. The large companies furnishing such apparatus all have regular lease forms with such provisions and they would just as soon sell aparatus that way as to receive cash at time of sale.

**Proposition Presented**

"Feeling that this is a matter that should have the immediate consideration of your board we have secured from the Segrave company and the American La France Engine company, both of which are well-known manufacturers of standard fire apparatus, letters, which are attached hereto, setting forth prices and terms upon which they will furnish fire apparatus such as would be suitable to take the place of engine No. 2.

"After comparing these figures in conference with Fire Chief Lankford we have decided to recommend for your consideration the American La France type 75, 6-cylinder, 750-gallon combination pumping station and hose wagon, purchase price $12,500. There will be no money available to apply on any part of the purchase price of this apparatus until after the first of December next.

"The American La France company will meet us, however, in this in that they will defer the first payment until after that date, charging no interest until first payment is made. They request that the first payment be 25 per cent of the principal, which will be $3,125, the balance to be paid in three annual payments charging 8 per cent interest on deferred payments. We are confident that these payments can be taken care of in the annual budget.

"We would respectfully recommend that proper proceedings be had to acquire this apparatus on the terms suggested above."

## J. L. Booth Granted Gasoline Curb Pump

The board of city trustees last night acted favorably on the following communication from T. W. Watson, city manager:

"In regard to application of J. L. Booth for permission to install a gasoline curb pump at 310 East Colorado street referred to us April 28:

"Inasmuch as there is a garage now operated at this location we would see no objection to the granting of said permit in accordance with the policy lately established by your board of granting permits for curb pumps on the business streets of the city."

## Big Reduction Sale Held By Music Firm

With the great reduction sale of the Glendale Music company, 109 North Brand boulevard, now in progress May promises to equal April sales records in phonographs and pianos, according to Vincent and Frank Salmacia, proprietors.

The latter states that several thousand dollars' worth of phonographs and records already have been turned since the sale began. Business the last thirty days has been better than at any time since the holidays, he added.

Among the numerous sales of pianos recently was that of a Baldwin concert grand to Jenson's Raymond theatre of Pasadena.

At the beginning of 1921, there were still seven states in which motor trucks were registered at the same rate as passenger automobiles.

## Trustees Act Upon Requests About Trees

On motion of Trustee Spencer Robinson, application for permission to remove trees from parkings were acted upon at the meeting of the board of city trustees last night in accordance with the following communication from T. W. Watson, city manager:

"In regard to applications on file for permission to remove street trees, we would respectfully recommend that the application of W. L. Jericks for permission to remove an acacia tree in front of 409 North Maryland avenue be denied; also that the application of J. H. Sherman for permission to remove one black acacia tree from the parkway in front of 341 West Broadway be denied.

"We would respectfully recommend that the following applications be granted:

"From H. H. Wiebe of 438 Burchett street to remove two of four trees in front of his residence.

"From W. E. Roake to remove two trees from the parkway at the northeast corner of Brand boulevard and Acacia street."

There are 250 species of onions.

## Doran Street P.-T. A. Elects New Officers

The regular meeting of the Doran street Parent-Teacher association was held at the school Wednesday afternoon. The principal business transacted was the election of officers, which resulted as follows:

Mrs. Peter Diederich, president; Mrs. L. M. Richardson, first vice-president; Mrs. F. L. Wintersgill, second vice-president; Mrs. C. L. Chandler, treasurer; Mrs. C. C. Johnson, secretary; Mrs. L. W. Sonntag, parliamentarian.

Mesdames Osgood and Edwards, hostesses for the afternoon, served home-made cake and tea during the social hour.

The frigate bird reaches a speed of 200 miles an hour.

The stork has been known to perish in a conflagration rather than desert its helpless offspring.

The Filipinos make a palatable bread from ground canary seed.

Some steel hairsprings are worth $40,000 a pound.

EVENING NEWS ADS GET RESULTS

# MINUTES OF CITY TRUSTEES

The proceedings of the Board of City Trustees in session at the city hall last night, as taken from the official minutes compiled by J. C. Sherer, city clerk, are as follows:

Board assembled at 8:15 p. m. All members present. Minutes of the last meeting of April 28th were read and corrected to show that in regard to garbage contract the city is to be paid $1.50 per ton; the minutes of the adjourned meeting of May 2, 1921, were read and all were approved.

**From Associated Students**

A resolution passed unanimously by the Associated Students of Occidental college on May 5, 1921 was presented to the board. In this resolution attention is called to the accident at the intersection of Los Feliz and Brand boulevard by which Miss Eugenia Lindsey lost her life and her sister was seriously injured.

The opinion is expressed that the speed of the Pacific Electric trains greatly exceed the speed limit set by the law of the state and the city of Glendale.

The desire was expressed to assist the city of Glendale in ascertaining the particulars of the accident; requesting that the city use every possible effort to see that the facts of the accident are obtained and that the laws of the city are enforced, in order that the lives of citizens may be protected.

In this connection the chairman stated certain facts in regard to the accident developed at the coroner's inquest.

On motion of Trustee Henry, the city attorney was instructed to obtain a transcript of the record of the testimony given at the coroner's inquest on the body of Miss Lindsey, and the police department was instructed to make a separate investigation and report to the city attorney; and if on his opinion sufficient evidence is at hand warranting criminal prosecution under ordinance No. 400, that the same be instituted without further orders; the city attorney to report action taken. Adopted; all members voting aye.

**Petition From Citizens**

A petition containing 600 names of Glendale citizens was presented to the board, stating that there is a clause in the franchise of the Pacific Electric Railway company, given by the city of Tropico which provides that all trains should stop at Tropico evenue (Los Feliz road) to take on or discharge passengers, and that this clause is ignored in the operation of trains. Petitions called attention to the fact that Los Feliz road carries heavy traffic, much of which is not acquainted with local conditions and non-stop proclivities of certain trains, and expressed the opinion that at San Fernando road, Park avenue, Colorado street crossings there should be special protection afforded to the traveling public. The petition further requested that the board take prompt action to abolish "limited" trains of high speed in Glendale streets and to enforce the provisions of the franchise. The chairman referred communication to the city attorney as regard to franchise question.

**From Library Board**

An invitation was presented from the library board to the board of trustees and the city manager to attend a meeting at the library, Tuesday evening, May 10, at 7:30 o'clock. On motion of Trustee Robinson, the same was accepted.

**Communication From G. A. R.**

A communication was read from Charles R. Norton, chairman of the G. A. R. committee, stating that it is the intention of the G. A. R. post of this city to celebrate in the usual manner Decoration Day, May 30, next, requesting that the trustees participate in such manner they may suggest as most fitting. On motion the invitation was accepted.

**Protests Against Permit**

A protest was received signed by Mrs. Laura McKee Walker and twelve other property owners in the neighborhood of 336 West Colorado street, protesting against the granting of a permit to conduct a sanitarium or rest home at the above number. In this connection the matter having been referred to the health officer, that official made a recommendation to the effect that it be not granted, and on motion of Trustee Robinson request for the permit was denied, all voting aye.

**Application Laid Over**

In regard to the application of Amy Crist for permit to maintain a rest home at 1253 South Boynton street the health officer gave the application his approval. On motion of Trustee Bartlett action on this application was deferred for one week. Trustee Stephenson voting no.

**For Rebate of Taxes**

A letter was read from R. W. Meeker stating that a strip of land sixty feet wide across the south end of his property, nearly one acre of ground, acquired by city by condemnation proceedings for the opening of Eighth street, is assessed to him by the county assessor and that he had been compelled to pay taxes on the same, although no longer owning the property. Mr. Meeker requests that the trustees reimburse him for the amount paid. Mr. Meeker's letter was ordered to be filed. Resolution was adopted instructing the city engineer in all cases where private property is acquired by the city by condemnation, vacation or otherwise, to give notice of the same to the county surveyor.

**Invitation From B. P. O. E.**

A communication was read from the B. P. O. E. lodge, No. 99, Los Angeles, asking the participation of the city in the "greatest, biggest and most characteristic and most gorgeous civic parade ever seen," to be held during the week of July 11, 1921. On motion the matter was referred to the Chamber of Commerce and the clerk was instructed to notify the B. P. O. E. committee of its disposition of the matter.

**Superintendent of Buildings**

Report of the building inspector for the month of April was presented showing as follows:

Permits issued, 199; amount of fees, $393.50; valuation of buildings, $393,418; plumbing permits issued, 187; amount of fees, $339.25; valuation, $43,124.25; electrical permits issued, 188; fees, $477.95; total fees, $1,210.70.

**Report of City Recorder**

Report of the city recorder for the month of April shows total amount of fines paid, $786.

**Report of Street Superintendent**

Excavation permits show receipts of $98 in fees.

**Report of City Treasurer**

Report of the city treasurer was presented and referred to the finance committee. Other reports were ordered to be filed.

**Demands**

The demands were presented and referred to the finance committee and the finance committee reported the demands approved and on motion of Trustee Robinson warrants were ordered to be issued in payment of the same by the following roll call: Ayes, Bartlet, Henry, Lapham, Robinson, Stephenson; noes, none.

**Condition of Fire Truck No. 2**

The city manager presented a communication setting forth condition of fire truck No. 2 (the Knox fire engine purchased by the city of Tropico). He stated that he has received a letter from the fire chief and verbal report showing the bad condition of fire truck No. 2. In his opinion the defects of the truck cannot be repaired in any satisfactory manner and he recommends to the consideration of the trustees the proposition of the American La France type 75, 6-cylinder, 750 gallon combination pumping station and hose wagon, purchase price, $12,500. He further recommends that the purchase be made out of the general budget fund by series of payments. After several discussions the motion of Trustee Lapham was adopted that Roy Hirchcliff be employed to repair fire truck No. 2 at a cost not to exceed $250; roll call as follows: Ayes, Bartlett, Lapham, Henry, Robinson; noes, Stephenson.

**Chamber of Commerce**

The city manager presented a request from the secretary of the Chamber of Commerce for an appropriation of $25 to be a part of the subscription of $200 by the citizens of Glendale to pay the cost of three pages or more advertising matter in the "Pacific Coast Elk," a large illustrated edition which will be distributed among the 1,400 lodges of Elks in the United States prior to the convention meeting in July. He recommended that the request be granted and on motion of Trustee Lapham, it was so ordered by roll call vote, all voting aye.

**Grand View District**

In regard to a petition filed by property holders in the Grand View District requesting the name of Sixth street be changed to Glenwood Road, the city manager presented a communication stating that the petition represented 79 1-3 per cent of the frontage of Sixth street in the Grand View district. In view of the probability of similar petitions being filed in the near future and for other matters requiring consideration, he suggested a public hearing on June 16, at which time all such petitions or suggestions as to street naming in the Grand View district that may be presented on or before the 9th day of June, may be considered, and that the conclusion of the trustees in regard thereto may be fixed in one ordinance. On motion of Trustee Bartlett, the recommendation of the city manager was approved and it was so ordered.

Trustee Stephenson was at 9:40 p. m. excused temporarily, Trustee Bartlett occupying the chair.

**Permit for Cesspool Granted**

The city manager recommended that the request of the First Methodist church for permit to construct a cesspool in the parkway on Wilson avenue be granted and on motion it was so ordered.

**Gathering of Garbage**

The city manager presented a report in regard to gathering of garbage, stating that the service has greatly increased during the past year. He estimates that this service will cost, including the salary of driver for truck and other help, approximately $500 per month and that cost of additional truck from time to time as conditions may require is estimated at $100 per month. It now costs for collection of papers in the business district approximately $200 per month, making a total monthly cost, covering papers, garbage, waste matter and rubbish, $1,066.25, to which there is credited $100 per month that will be received from the sale of garbage leaving $966.25 the net cost of the service. He recommends in order to meet this expense that a charge be made for rendering certain service that has hitherto been given free. This charge need not be large and should only be for the first six months of the coming fiscal year. In order to eliminate a portion of the overhead cost in connection with this work, he recommends a system by which the city issue tickets entitling the holders to the service, these tickets to be paid for in advance, each one to represent a separate unit of service. He further suggests that these tickets could be supplied by the city in coupon books at $1.75 each, each book containing twenty-five tickets. By adopting this means, practically the bookkeeping and collection cost could be eliminated. He also requests that a flat rate charge of 50 cents a month be made in the business district to each business establishment requiring such service and 25 cents

**Removal Of Trees**

In regard to application for permit to remove trees the city manager recommended as follows: That application of W. L. Jericks and J. H. Sherman be denied and that application of H. H. Wiebe and W. E. Roake be granted. On motion of Trustee Robinson recommendation was approved and it was so ordered.

**Application To Operate**

In regard to application of L. Bender to operate a portable popcorn vending machine on the streets of the city, the city manager recommended that the same be denied and on motion of Trustee Robinson it was so ordered.

**Application Of J. L. Booth**

The city manager recommended that application of J. L. Booth for permit to install gasoline curb pump at 310 East Colorado street be granted. On motion it was so ordered.

**Appraisement Of Property**

In regard to the matter of appraising the property of the Verdugo Canon Water company by a board consisting of three members, one to be appointed by the board of trustees and one by the Verdugo Canon Water company and a third by the first two, the city manager reported that at a meeting of the directors of the Verdugo Canon Water company, J. C. Sherer has been appointed to represent the company on the board. On motion of Trustee Robinson it was so ordered that G. B. Woodbery represent the interests of the city as a second member of the board.

**Application Of A. P. Offutt**

The city manager reported on the application of A. P. Offutt for permit to operate a gasoline filling station at the southwest corner of Broadway and Central avenue as follows: A movement is under consideration looking toward the extension of Broadway directly across Central avenue at right angles, extending from the west line of Central avenue diagonally across several lots at the intersection of the south line of Broadway about 200 feet west of Central avenue. In this connection he submitted a report from the Chamber of Commerce calling attention to the desirability of this improvement. He recommends that no action be taken on this application pending the consideration of the matter by the Chamber of Commerce. The same recommendation was made in regard to application of Mr. Offutt to remove trees. A motion of Trustee Lapham was adopted that recommendation of the city manager be complied with.

(At this time, 10 p. m. Trustee Stephenson returned and resumed the chair).

A motion of Trustee Bartlett was adopted that the oral recommendation made by the city manager in regard to the proposed curve in Broadway at Central avenue be adopted.

**To Advertise For Bids**

The city manager recommended that the city clerk be instructed to advertise for bids to supply the city with glass globes. On motion it was so ordered.

**Street Plan For District**

On motion of Trustee Henry a resolution No. 1186, a resolution adopting a street plan for hte Grand View district, was adopted on roll call, all voting aye.

**Improvement Of Arden**

A resolution of Trustee Robinson was adopted on roll call all voting aye, as Resolution 1187, "A resolution directing the re-advertising for bids for the improvement of Arden avenue in the city of Glendale."

**Bond Issue Municipal District No. 4**

Trustee Lapham presented an ordinance which was read and laid over providing for the issuance of bonds in the amount of $30,000 of "Municipal Improvement District No. 4."

**Garbage Contract**

The city attorney presented a contract to be entered into between the city of Glendale and Leslie C. Orendorff covering the collection of garbage and on motion of Trustee Lapham the contract was approved and the president of the board and the city clerk authorized to execute the same on behalf of the city.

**Regard To Lot Cleaning**

A resolution was on motion adopted as Resolution No. 1189: "A resolution of the board of trustees of the city of Glendale declaring its intention to order certain lots in said city to be cleaned," on roll call, all voting aye.

**Interment Of Dead Bodies**

An ordinance was presented regulating the interment of dead bodies of human beings in the city of Glendale, and laid over.

**Report Of The Treasurer**

The report of the treasurer for the month of April was approved by the finance committee and ordered to be filed.

Adjourned.
